# LOYOLA UNIVERSITY

NEW ORLEANS, LA.

1916-1917

# CHARTER OF THE UNIVERSITY

---

ACT No. 136 OF THE LOUISIANA STATE LEGISLATURE.

SENATE BILL No. 78 INTRODUCED BY SENATOR WM. H. BYRNES.

## AN ACT

To authorize and empower Loyola University to confer degrees in the Arts and Sciences and all the learned professions, and to give diplomas or certificates thereof; and to fix the status of such degrees and diplomas or certificates.

Whereas due notice of the intention to apply for the passage of this Act has been published as required by Article 50 of the Constitution of the State of Louisiana, and due evidence thereof has been exhibited in and to the General Assembly.

SECTION 1. Be it enacted by the General Assembly of the State of Louisiana, that "Loyola University," a corporation organized under the laws of this State and domiciled in the City of New Orleans, be and is hereby authorized and empowered to confer upon its students, or upon any person deemed by it worthy of such distinction, degrees in the Arts and Sciences and all the learned professions, such as are granted by other universities in the United States, and to give diplomas or certificates thereof.

Provided that the curriculum or course of study in the learned professions shall equal that maintained by other standard universities.

SECTION 2. Be it further enacted, etc. That said degrees and diplomas or certificates shall be recognized by the courts and all officials of this State, as entitling the graduates receiving said degrees and holding said diplomas or certificates, to the same rights, immunities and privileges in the State of Louisiana as the graduates of any other university or institution of learning whatsoever.

SECTION 3. Be it further enacted, etc., That all laws or parts of laws in conflict with the provisions of this Act be and the same are hereby repealed.

L. E. THOMAS,

Speaker of the House of Representatives.

THOMAS C. BARRET,

Lieutenant Governor and President of the Senate.

L. E. HALL,

Governor of the State of Louisiana

ALVIN E. HEBERT,

Secretary of State.

Approved July 10th, 1912.

## BOARD OF TRUSTEES

---

REV. ALPHONSUS E. OTIS, S. J.,  
PRESIDENT.

REV. MICHAEL J. WALSH, S. J.

REV. LEO M. BELLOCQ, S. J.

REV. MICHAEL KENNY, S. J.

REV. ANTON L. KUNKEL, S. J.

REV. THOMAS D. MADDEN, S. J.

---

The Legal and Corporate Title of the University is:

“LOYOLA UNIVERSITY, NEW ORLEANS, LOUISIANA.”

All Donations, Endowments, Legacies, Bequests, etc.,  
should be made out under this title.

# OFFICERS AND FACULTY OF THE UNIVERSITY

---

REV. ALPHONSUS E. OTIS, S. J.,  
President of the University.

ST. CLAIR ADAMS, LL. B.,  
Professor of Evidence, Criminal Procedure and Crimes.

PHILIP ASHER, Ph. G., M. D.,  
Dean of the College of Pharmacy and Professor of Chemistry.

JACOB BARNETT, M. D.,  
Professor of Clinical Gynecology.

REV. LEO. M. BELLOCQ, S. J.,  
Treasurer of the University.

HENRY N. BLUM, M. D.,  
Professor of Ophthalmology.

R. E. BODET, M. D.,  
Professor of Materia Medica and Pharmacology.

M. P. BOEBINGER, M. D.,  
Instructor in Oto-Laryngology.

ALFRED J. BONOMO, A. M., LL. B.,  
Secretary and Assistant Professor in the Law Department.

CHARLES A. BOREY, M. D.,  
Professor of Pediatrics.

EX-CHIEF JUSTICE JOSEPH A. BREAUX, A. B., LL. D.,  
Civil Code, Succession and Testaments.

M. T. BRESLIN, M. Ph.,  
President, New Orleans College of Pharmacy.

ALEXIS BRIAN, LL. B.,  
Lecturer on the Code of Practice.

REV. WALLACE A. BURK, S. J.,  
Professor of Letters in Freshman Class and French.

T. R. BURT, M. D.,  
Clinical Assistant in Pediatrics.

WILLIAM H. BYRNES, JR., A. B., LL. B.,  
Insurance and Torts.

HUGH C. CAGE, LL. B.,  
Civil Code, Contracts in General.

N. O. CALLOWAY, M. D.,  
Instructor in Anesthesia.

L. CANEPA, M. D.,  
Clinical Assistant in Pediatrics.

REV. THOMAS CLARKE, Ph. D., S. J.,  
Professor of Chemistry.

G. A. CRONAN, M. D.,  
Instructor in Obstetrics.

C. GRENESE COLE, M. D.,  
Professor of Clinical Surgery.

JOSEPH A. DANNA, M. D.,  
Professor of General Principles of Surgery.

WILLIAM K. DART,  
Lecturer on Constitutional Law.

RIGNEY D'AUNOY, M. D.,  
Professor of General Histology, Pathology and Bacteriology.

REV. JOSEPH DE LA MAZA, S. J.,  
Professor of Mathematics and Spanish.

H. J. DAUTERIVE, M. D.,  
Clinical Assistant in Medicine.

CHARLES I. DENECHAUD, LL. B.,  
Civil Code, Personal Relations and Property Rights.

J. GEORGE DEMPSEY, M. D.,  
Adjunct Professor of Gynecology.

LEAVIN DE POORTER, M. D.,  
Oral Surgery, Professor of Rhinology and Laryngology.

THEODORE J. DIMITRY, M. D.,  
Professor of Laryngology and Rhinology.

C. A. M. DORRESTEIN, M. D.,  
Adjunct Professor of Gynecology.

HOMER DUPUY, M. D.,  
President, Post-Graduate School of Medicine.  
Instructor in Ophthalmology.

J. S. DUNN, M. D.,  
Instructor in Ophthalmology.

JOSEPH M. ELLIOT, M. D.,  
Professor of Clinical Medicine.

HENRY M. FONTANA,  
Technician.

ALPHONSE J. FORET, D. D. S.,  
Instructor in Exodontia.

EDWARD A. GAMARD, D. D. S.,  
Clinical Demonstrator.

L. J. GENELLA, A. B., M. D., LL. B.,  
Physiology.

WALTER L. GLEASON, LL. B.,  
Lecturer on Private Corporations.

FABIUS C. GODBOLD, M. Ph.,  
Vice-President, New Orleans College of Pharmacy.

JACOB A. GORMAN, D. D. S.,  
Professor of Orthodontia and Dental Radiography.

JOHN J. GRASSER, Ph. G.,  
Professor of Pharmacy and Director of Laboratories

SAMUEL S. GROSJEAN, D. D. S.,  
Professor of Histology and Dental Anatomy.

J. G. HAUER, M. D.,  
Clinical Assistant in Gynecology.

WILLIAM J. HEALEY, D. D. S.,  
Superintendent of Dental Clinics.

CLARENCE S. HEBERT, A. M., LL. B.,  
Civil Code, Particular Contracts.

J. S. HEBERT, M. D.,  
Adjunct Professor of Obstetrics.

J. A. HENDERSON, M. D.,  
Professor of Surgery.

ADOLPH D. HENRIQUES, Ph. G., M. D.,  
Emeritus Professor of Materia Medica and Physiology.

JULIAN G. HIRSH, Ph. G., M. D.,  
Instructor in Surgery.

CHARLES P. HOLDERITH, M. D.,  
Adjunct Professor of Gynecology.

J. M. HOUNTHA, M. D.,  
Clinical Assistant in Surgery.

J. S. HUME, M. D.,  
Instructor in Ophthalmology.

OTTO JOACHIM, M. D.,  
Professor of Otology.

E. S. KEITZ, M. D.,  
Instructor in Laryngology and Rhinology.

REV. MICHAEL KENNY, S. J.,  
Professor of Ethics, Special Metaphysics and Jurisprudence.

BENJAMIN W. KERNAN, LL. B.,  
Admiralty.

WILLIAM KOHLMANN, M. D.,  
Professor of Gynecology.

REV. ANTON L. KUNKEL, S. J.,  
Physics, Director of the Geo-Physical Observatory.

GUSTAVE A. LLAMBIAS, A. B., LL. B.,  
Civil Code, Accessory Contracts, Privileges and Prescriptions.

J. HAMILTON LANDRY, D. D. S.,  
Instructor in Prosthetic Dentistry.

J. B. LAROSE, M. D.,  
Instructor in Ophthalmology.

ABRAHAM L. LEVIN, M. D.,  
Adjunct Professor of Gastro-Intestinal Diseases.

LOUIS H. LEVY, M. D.,  
Clinical Assistant in Gynecology.

MAUD LOEBER, M. D.,  
Instructor in Medicine.

REV. THOMAS D. MADDEN, S. J.,  
Chaplain.

R. J. MAINEGRA, JR., M. D.,  
Instructor in Genito-Urinary and Rectal Diseases.

SARA T. MAYO, M. D.,  
Instructor in Gynecology.

C. B. MAXWELL, M. D.,  
Clinical Assistant in Surgery.

SAMUEL H. McAFEE, D. D. S.,  
Professor of Operative Dentistry, Crown and Bridge Work.

HENRY MOONEY, LL. B.,  
Commerce Factors and Traders, Bills and Notes, Banking.

I. D. MOORE, LL. B.,  
Municipal Corporations.

JOSEPH NADAU DU TREIL, R. E.,  
Instructor in Radiology.

ABRAHAM NELKEN, M. D.,  
Professor of Genito-Urinary and Rectal Diseases.

JACOB W. NEWMAN, M. D.,  
Professor of Obstetrics.

HENRY T. NICOLLE, A. M., M. D.,  
Instructor in Pathology.

A. NOHA, M. D.,  
Clinical Assistant in Medicine.

REV. JAMES J. O'BRIEN, S. J.,  
Librarian and Professor of English.

RAMON A. ORIOL, M. D.,  
Professor of Botany.

FRANK F. OSER, D. D. S.,  
Clinical Demonstrator.

F. A. OVERBAY, M. D.,  
Instructor of Diseases of the Eye.

J. MAXIME PERRET, M. D.,  
Pathology and Bacteriology.

REV. OSCAR M. POCHE, S. J.,  
Professor of English and French.

J. F. POINTS, M. D.,  
Adjunct Professor of Surgery.

ARTHUR E. PORTER, D. D. S.,  
Director of the Department of Radiology.

L. MAURICE PROVOSTY, M. D.,  
Professor of Physiology.

WILLIAM C. RICHARDSON, D. D. S.,  
Associate Professor of Prosthetic Technics.

THEODORE ROEHL, LL. B.,  
Theory of Law and Interpretation of Laws.

J. NUMA ROUSSEL, M. D.,  
Professor of Dermatology.

JAMES JOSEPH RYAN, M. D.,  
Professor of Anatomy.

President.

Address: 209 Medical Building, New Orleans, La.

JOS. A. DANNA, M. D.,  
Secretary.

Address: 716 Maison Blanche Building, New Orleans, La.

## **General Statement.**

In response to a general demand from the public and to meet the wishes of His Grace Archbishop. Blenk, the Jesuit Fathers opened a Catholic University in New Orleans in the Fall of 1911. This University is a part of the great Jesuit University System, which numbers an actual attendance of over fifty thousand students. Its aim is to put a heart and a conscience into secular instruction, and to vitalize knowledge by the influence of fundamental religious principles.

The Jesuit system of education aims at developing, side by side, the moral and intellectual faculties of the student, and sending forth to the world men of sound judgment, of acute and rounded intellect, of upright and manly conscience. The whole man, mind, soul and body must be educated.

The various courses offered by the University are open to students irrespective of creed, and the religious tenets of all are studiously respected. Nevertheless, the course of instruction in all branches supposes the existence of God, and man's entire dependence upon the Supreme Being. The pernicious effects of Materialism, Skepticism, Rationalism, etc., will not be permitted to exercise influence in any course, professional or non-professional, nor will any statement or theory conflicting with Divine revelation be countenanced. Moreover, God's holy commandments will be esteemed and revered, and our young men will be taught a code of ethics which will acknowledge God's rights and supreme dominion over man.

---

## **Location and Buildings.**

Loyola University is admirably situated in the garden district of the City of New Orleans, on St. Charles Avenue, opposite Audubon Park. The Prytania, Carondelet, Clio, St. Charles, Tulane, Coliseum and Henry Clay street cars make it easily accessible from all parts of the city.

The University group of buildings includes Marquette Hall, the Louise C. Thomas Hall, the McDermott Memorial Church to be known as the Gesu, and the Nicholas D. Burke Seismic Observatory.

Marquette Hall, the main building, is at right angles to the central axis of the property and approximately three hundred feet from St. Charles Avenue.

The Louise C. Thomas Hall is at the South East corner of the front quadrangle court and its main entrance is sixty feet from the Avenue.

The McDermott Memorial Church, the gift of Miss Kate McDermott in memory of her brother, the late Thomas McDermott, which is in course of erection at the South West corner of Marquette Hall, will complete the front quadrangle.

The Nicholas D. Burke Seismic Observatory is on the main property axis and is directly in the rear of Marquette Hall, and on the central point of a future rear quadrangle. It is equipped with two seismographs, a horizontal and vertical of the Wiechert astatic type. An astronomical clock registers the exact time at which graphs are recorded.

The Architecture, Tudor Gothic, has become one of the most pliable and favored types for collegiate buildings and is extremely well adapted to church work.

The exteriors of the buildings which are entirely fireproof are constructed of limestone and tapestry brick of a dark and rich red color, laid with large joints of about the same tone as the limestone.

Ventilation and light have been two most important considerations in the planning and design of these buildings. Low pressure steam heat is supplied from the central power plant in the basement of the Marquette Hall.

## FOUNDERS.

---

The Jesuit Fathers and the Marquette Association for Higher Education are deeply grateful to:

**Mr. and Mrs. William P. Burke**

for the Seismic Observatory erected on Loyola Campus in memory of their beloved son, Nicholas D. Burke,

**Mrs. Louise C. Thomas**

for the building on St. Charles Avenue known as the Louise C. Thomas Hall,

**Mr. and Mrs. E. J. Bobet**

for the Bobet Memorial Library,

**Miss Kate McDermott**

for the University Church—The Gesu—to be erected in memory of her brother, the late Thomas C. McDermott,

**Mrs. Branch K. Miller**

for the superb Law Library of the late Judge Branch K. Miller,

**Mr. Charles W. Zeigler**

for the apparatus and equipment of the Wireless Station.

**Also to the Special Benefactors**

Mr. William Agar, Mr. George Augustin, Mr. H. O. Bisset, Mrs. E. L. Beltran, Dr. Basil R. Beltran, Mrs. J. D. Bloom, Rev. Charles F. Brockmeier, Mrs. A. R. Brousseau, Mr. Joseph

P. Buckley, Mrs. Nicholas H. Burke, Russell Clark, Mr. and Mrs. E. Claudel, Mrs. C. Del Bondio, Miss E. Del Bondio, Mr. and Mrs. J. Douglas, Mrs. Margaret Douglas, Mr. C. I. Denechaud, Dominican Sisters (Dryades Street), Congressman Garland Dupre, Mrs. S. B. Elder, Rev. Thomas Eaton, Mr. Lawrence Fabacher, Mr. J. B. Fromherz, Mrs. Samuel L. Gilmore, Miss Mary Hennessy, Rev. Leslie J. Kavanaugh, Rev. Philip Keller, Dr. Howard King, Mrs. Quitman Kohnke, Dr. Felix A. Larue, Mr. A. F. Livaudais, Miss Elizabeth Lyman, Mr. Hugh McCloskey, Miss Blanche McChord, Mr. Nicholas J. Nutter, Mr. J. P. O'Leary, Dr. L. M. Provosty, Mr. Charles Quirk, S. J., Senator J. E. Ransdell, Mrs. E. W. Rodd, Mr. Theodore Roehl, Dr. J. N. Roussel, Dr. William Scheppegegrell, Mrs. C. I. Seemann, Miss May Seeman, Judge John St. Paul, Mr. and Mrs. G. Swarbrick, Mrs. R. H. Tate, Mr. Charles Theard, Mr. T. P. Thompson, Mrs. Omer Villere, Col. and Mrs. W. G. Vincent, Mrs. Dalton Williams, Mr. H. S. Kokosky, E. H. Park, C. E., Mr. D. D. Curran, Mr. Alfred Zeigler, Mrs. Thomas Layton, Mrs. Edward Tobey, Rev. M. Kenny, S. J., Rev. Albert Biever, S. J., Rev. Thos. H. Bortell, S. J. (Augusta, Ga.), Very Rev. B. Otting, S. J. (St. Louis, Mo.), Rev. T. A. O'Brien (Chicago), Rev. John Carroll (Chicago), Rt. Rev. E. P. Allen, D. D. (Mobile), Mrs. Geo. Denegre, Miss Marie Denegre, Mrs. Louise Roberts, Mrs. J. V. Calhoun, Doctor Solon G. Wilson, Mr. W. C. Staub, Mr. James J. McLoughlin, Mr. M. Lynch, Mr. S. P. Lafaye, Mrs. and Miss Scott, Mr. M. C. Soniat, Rev. W. H. Ketcham, Mr. O. Gernon, Mrs. Derivaux, Rev. Mother Joseph Butler (Tarrytown, N. Y.), Rev. J. Hanselman, S. J. (Woodstock, Md.), Sisters of Mercy, Ursulines, Ladies of the Sacred Heart, Sisters of Charity, The Smithsonian Institute, The U. S. Bureau of Education, The Carnegie Foundation of Universal Peace, and other Government departments and educational institutions.

## AN APPEAL.

---

The Jesuit Fathers feel a confident hope that the friends of education will make Loyola University one of the great institutions of the South. Loyola will be a valuable asset to this community and to the entire South, when the United States of America shall have come into closer commercial and social relations with Central and South America, the West Indies and the Philippine Islands.

May she not then appeal for moral and financial support to those who believe that the integrity of our people and the permanency of our institutions rest on the principles for which she will always stand?

Loyola needs funds to establish her different departments, to endow her professorial chairs and to found scholarships for deserving boys. Other institutions are the recipients of large sums, why should not Loyola, which stands for the noblest in life, enlist the generosity and patronage of those whom God has blessed with wealth?

---

## SCHOLARSHIPS.

---

To found a scholarship in the College Department of Loyola University, the sum of Two Thousand Dollars will suffice. The founder has a right to keep a student in this department in perpetuity, a new beneficiary being eligible as soon as his predecessor has either completed the course or has left the University. The honor is forfeited by any holder of a scholarship whose average for two consecutive months falls below 70 per cent.

# SOCIETIES

---

## JESUIT ALUMNI ASSOCIATION

of New Orleans.

---

The object of this Association is to foster and preserve friendly relations between Jesuit Alumni; to strengthen and keep alive the traditions of their Alma Mater; to maintain a fellow feeling between former students of Jesuit Colleges; to use its best endeavors to promote the moral, mental, and social well-being of the members, and to further the influence and interests of the University.

## OFFICERS AND FACULTY

---

REV. ALPHONSUS E. OTIS, S. J.,  
President of the University.

REV. MICHAEL J. WALSH, S. J.,  
Vice-President and Prefect of Studies.

REV. LEO M. BELLOCQ, S. J.,  
Treasurer.

REV. THOMAS D. MADDEN, S. J.,  
Chaplain.

REV. JAMES J. O'BRIEN, S. J.,  
Librarian and Professor of History in Sophomore Class.

REV. MICHAEL KENNY, S. J.,  
Special Metaphysics, Ethics and Political Economy in the Senior  
Class.

REV. ANTON L. KUNKEL, S. J.,  
Physics. Director of the Geo-Physical Observatory.

REV. MICHAEL J. WALSH, S. J.,  
Professor of Letters in the Sophomore Class.

REV. WALLACE A. BURKE, S. J.,  
Professor of Letters in Freshman Class. French. Athletics.

REV. JOSEPH DE LA MAZA, S. J.,  
Professor of Mathematics.

RIGNEY N. D'AUNOY, M. D.,  
Professor of Biology.

REV. JOSEPH DE LA MAZA, S. J.,  
Instructor in Spanish.

RAMON A. ORIOL, M. D.,  
Professor of Botany.

ARTHUR E. PORTER, D. D. S.,  
Director of the Department of Radiology.

JOSEPH NADAU DU TREIL, R. E.,  
Instructor in Radiology.

EUGENE C. GRAVELY, R. E.,  
Instructor in Radiology.

## THE JESUIT SYSTEM OF EDUCATION

Education, as understood by the Fathers of the Society of Jesus, in its complete sense, is the full and harmonious development of all those faculties that are distinctive of man. It is not, therefore, mere instruction or the communication of knowledge. In fact, the acquisition of knowledge, though it necessarily accompanies any right System of Education, is a secondary result of education. Learning is an instrument of education, not its end. The end is culture, and mental and moral development.

The purpose of the mental training given in the undergraduate courses is not proximately to fit the student for some special employment or profession, but to give him such a general, vigorous and rounded development as will enable him to cope successfully, even with the unforeseen emergencies of life. While giving the mind stay, it tends to remove the insularity of thought and want of mental elasticity, which is one of the most hopeless and disheartening results of specialism in students, who have not brought to their studies the uniform mental training given by a systematic college course.

Understanding then, clearly, the purposes of education, such instruments of education, that is, such studies, sciences, or languages are chosen, as will most effectively further that end. These studies are chosen, moreover, only in proportion, and in such numbers as are sufficient and required.

It is fundamental in the system of the Society of Jesus that different studies have distinct and peculiar educational values. Mathematics, the Natural Sciences, Language, and History are complementary instruments of education to which the doctrine of equivalence cannot be applied. The specific training given by one cannot be supplied by another.

A special importance is attached to the classic tongues of Rome and Greece. As these are languages with a structure and idiom remote from the language of the student, the study of them lays bare before him the laws of thought and logic, and requires attention, reflection and analysis for the fundamental relations between thought and grammar. In studying them the

student is led to the fundamental recesses of language. They exercise him in exactness of conception in grasping the foreign thought, and in delicacy of expression in clothing that thought in the dissimilar garb of the mother-tongue. While recognizing, then, in education, the necessity and importance of Mathematics and the Natural Sciences, which unfold the inter-dependence and the laws of the world of time and space, the Jesuit system of education has unwaveringly kept Language in a position of honor as an instrument of culture.

### ADMISSION REQUIREMENTS.

A certificate from the Principal of the High School in **Admission** which a student has been prepared for College will **by Certificate.** be accepted instead of examinations in the subjects offered for admission.

An applicant without a High School certificate will have to pass an examination in the required subjects for the course **Admission** he intends to follow and in such other subjects **by Examination.** from the list of electives as he may present for entrance.

All candidates for the Bachelor's Degree must present entrance credits amounting to sixteen units. A unit represents **Detailed** a year's study in a high school subject pursued **Statement.** five times a week.

The required units are as follows:

#### A. B. COURSE.

|               |          |                    |           |
|---------------|----------|--------------------|-----------|
| Latin .....   | 4 Units. | Ancient History... | 1/2 Unit. |
| Greek .....   | 2 Units. | Modern History...  | 1/2 Unit. |
| English ..... | 3 Units. | Science .....      | 1 Unit.   |
| Algebra ..... | 2 Units. | Elective .....     | 1 Unit.   |
| Geometry..... |          | 2 Units.           |           |

#### B. S. COURSE.

|                       |          |                    |          |
|-----------------------|----------|--------------------|----------|
| English .....         | 3 Units. | Ancient History... | 1 Unit.  |
| Modern Language ..... | 2 Units. | Science .....      | 2 Units. |
| Algebra .....         | 2 Units. | Elective .....     | 4 Units. |
| Geometry.....         |          | 2 Units.           |          |

The elective units must be taken from the following list:

**Elective Units.** English Literature; Modern Language; American History; English History; Chemistry; Physical Geography.

### SPECIAL REGULATIONS.

As regular attendance is an important element in class standing and an essential condition for successful work, students must not be detained or withdrawn from classes **Attendance.** except for very grave reasons. Mere absence does not excuse a student from the obligation of preparing his ordinary recitations or relieve him from any part of his examinations.

All the endeavors of the faculty will fail to insure success for the students unless they apply themselves to their studies with diligence and constancy outside of class **Home Study.** hours. Parents and guardians are, therefore, respectfully urged to insist on this application.

Besides religious and moral training, much importance is attached to the development of the manners of perfect gentlemen. Whatever is contrary to good breeding is **Politeness.** out of place in College.

The College regulations are enforced with gentleness combined with firmness. Religious motives, with motives of honor or duty, being habitually appealed to, little need is **Parental Govern-** felt of frequent or severe punishment. Flagrant **ment and** misdemeanors, if detrimental to the reputation of **Sanctions.** the College or obstructive of the good of other students, are grounds for suspension or for expulsion, conditional or absolute. Gambling, the use of profane language or of aught bordering on immorality will subject the offender to immediate suspension or expulsion. Damages to the College property will be repaired at the expense of the offender.

Monthly competitive exercises are given in the various branches of class matter. The average result determines the **Monthly** student's class standing for each month and the **Report.** monthly class honors. These honors are, with the

averages of Good Conduct and of Application, read publicly each month in the presence of the President and faculty and the assembled student body.

During the first week of each month a bulletin of Scholarship and Deportment is forwarded to parents, to be examined and signed by them. On the scale used 100 is the maximum and Zero the minimum. The student's rank is determined by his position in one of the following grades:

|              |            |
|--------------|------------|
| 100-90.      | Very Good. |
| 89-80.       | Good.      |
| 79-70.       | Fair.      |
| 69 or below. | Deficient. |

Promotions to a higher grade are regularly made at the beginning of the academic year. Students who fail in two **Promotions.** principal branches will not be allowed to pass to a higher grade. Students who fail in one of the principal branches will be conditioned in this branch. This condition must be removed by a satisfactory examination not later than the fifteenth day of the following November.

Saturday is the weekly holiday, but should an extraordinary **Recreation.** holiday fall on a regular class day, classes may be continued on Saturday.

Although Loyola is a Catholic institution, nevertheless non-Catholics are admitted and their opinions respected. They are **Religious** not required to participate in any distinctly Catholic exercises; nor shall they be refused admission **Worship.** to or denied any of the privileges, honors, or degrees of the University because of their religious tenets.

# SCHEDULE OF COURSES

---

## CLASSICAL COURSE

Leading to the Degree of Bachelor of Arts

---

### SENIOR CLASS

#### EVIDENCES OF RELIGION

One Hour a Week. (Two Half Periods)

**Schouppe's Course of Religious Instruction.**—Lectures by the Professor.

**Dogmatic.**—Penance, Extreme Unction, Holy Orders, Matrimony, the Virtues, the Four Last Things.

**Moral.**—Laws, the Decalogue, the Commandments of the Church, Sin, Virtues, Christian Perfection, the Sacraments, Prayer, Feasts and Ceremonies of the Church.

#### PHILOSOPHY

Eight Hours a Week. Written theses twice a week

**Psychology.**—(A) Organic Life Defined; the Vital Principle in the Plant; Sensation, Imagination, Memory, Instinct, the Rank of the Animal Soul; Origin of Species, Darwinism.

(B) The Intellect, Genesis of Ideas, Self-consciousness, Judgment and Reasoning, Hypothesis of Innate Ideas, Empiricism, Ontologism; the Will, Freedom, Control over Faculties; the Soul, its Substantiality, Simplicity, Spirituality, Immortality, the Union of Body and Soul, Origin of the Human Soul; Unity and Antiquity of the Human Race.—*Text Book*:—*Coppens' Mental Philosophy with Maher's Psychology*, Urraburu for reference.

**Natural Theology.**—Existence and Nature of God ; Metaphysical, Physical and Moral Proofs ; Aseity, Infinity, Simplicity, Unity, Unchangeableness, Eternity, Imminity ; Life of God ; His Intelligence, Futuribles ; His Will, its Object ; Moral and Physical Evil ; Action of God in the Universe, Creation, Conservation, Concurrency, Providence, Miracles. *Text Book* :—*Coppens' Mental Philosophy*. *Jouin's Praelectiones with Boedder's Natural Theology*, *Urraburu* for reference.

**Ethics.**—General Ethics: Nature, Object and Necessity of Ethics ; Teleology, Beatitude ; Human Acts, Morality of Human Acts ; Passions, Habits ; Moral Obligation and its Origin ; Eternal Law, Natural Law ; Probabilism, Sanction of Law ; False Forms of Morality, Utilitarianism, Hedonism, Altruism.

Special Ethics: Duties, Worship ; Homicide ; Self-defense, Suicide, Duelling ; Veracity, Charity, Rights ; Private Ownership, Communism, Socialism, Agrarian Socialism, Henry George, Herbert Spencer ; Capital and Labor ; Domestic Society, Matrimony, Divorce, Celibacy ; Parental Authority, Education, Relation of Master and Servant ; Civil Society, its Nature and Origin, False Theories of Hobbes, Rousseau, Locke ; Civil Government, Suffrage ; Liberty of Opinion, of the Press, of Worship, of Association ; International Law ; Church and State ; Natural Law and Legal Practice ; Natural Law and Medical Practice. *Text Books* :—*Coppens' Moral Philosophy*, with *Rickaby's Moral Philosophy*, *Cathrein*, *Holaind* for reference.

**Economics.**—Production and Consumption ; Industrial Organization ; Theory of Consumption, Particulars ; Family Life and Law ; Growth and Decay of Nations ; Exchange, Trade, Market Prices, Non-Market Prices ; Differential Gains, International Trade ; Money, Coinage and Tokens, Credit and Banking, the Foreign Exchanges,

Commercial Credit ; Distribution, Profits, Interest, Wages ; Rich and Poor, Liberty and Law, Association and Responsibility ; Public Finance, Functions and Cost of Government ; Public Ownership and Management, Taxation, Public Debts. *Text Books* :—*Devas' Political Economy with Laughlin's Political Economy, Thompson's Social Science and National Economy* for reference.

## PHYSICS

Five Hours a Week with daily exercises, and three hours a week allowed for Laboratory Work.

**Molecular Physics.**—General principles of matter. General properties of Bodies. Hydrostatics. Capillarity, endosmose, diffusion, absorption. Hydro-dynamics. The property of gases. Barometers. Measurement of the elastic force of gases. Aerodynamics.

**Acoustics**—Energy of Mass Vibration, Laws of Propagation, Refraction, Resonance and Interference of Sound Waves, Musical Sounds, Harmony, Musical Instruments.

**Heat.**—Thermometry, Calorimetry, Change of State Solutions, Thermodynamics, Kinetic Theory of Gases, Heat Engines.

**Optics.**—Light waves ; their reflection, refraction, interference, dispersion, radiation. absorption, polarization. Colors, Optical instruments.

**Electricity.**—The electrostatic field. The electric currents. Current induction. Electric measurements. Dynamos and Motors. Telegraph, Telephone, Electric lighting. Transmission of power. Electric waves. *Text Book* :—*Carhart's College Physics*.

## MATHEMATICS

Five Hours a Week. Written Exercises Twice a Week

### First Session

**Wentworth's Analytic Geometry.**—(A) Plane Analytic Geometry, Loci and Equations, the Straight Line, the Circle, Different Systems of Co-ordinates, the Parabola, the Ellipse, the Hyperbola, Loci of the Second Order, Higher Plane Curves. (B) Solid Analytic Geometry, The Point, the Plane, the Straight Line, Surfaces of Revolution.

### Second Session

**Murray's Differential and Integral Calculus.**—Introductory Problems, Algebraic Notations, Definitions, Differentiation of the Ordinary Functions and Applications, Successive Differentiation, Differentiation of Functions of Several Variables, Change of Variable, Concavity and Convexity, Theorems of Mean Value, Indeterminate Forms, Curves, Motion, Infinite Series, Taylor's Theorem, Integration, Elementary Integrals, Applications, Integration of Irrational and Trigonometric Functions, Approximate, Mechanical, Infinite and Successive Integration and Applications, Inertia, Differential Equations.

## BIOLOGY

Five Hours a Week, and Two Hours a Week

Allowed for Laboratory Work

**Daugherty's Economic Zoology.**

## MODERN LANGUAGE

Five Hours a Week. Written Exercises Twice a Week

**French, German or Spanish** is prescribed for this class.

## ELOCUTION

One Hour a Week

**Dramatic and Oratorical Practice.**—Declamation Extempore Speaking, Debates, Criticism and Discussion of Interpretation and Delivery.

## JUNIOR CLASS

### EVIDENCES OF RELIGION

One Hour a Week. (Two Half Periods)

**Schoupe's Course of Religious Instruction.**—Lectures by the Professor.

**Apologetic.**—Truth of the Christian Religion as opposed to Unbelief, and to Heresy; Nature and Institution of the Church; Proof of the Truth of the Catholic Church; its Marks; Accusations brought against it.

**Dogmatic.**—Sources of Authority: God and His Attributes, the Blessed Trinity; the Creation of the World; the Incarnation; Grace, the Sacraments; Baptism, Confirmation, the Blessed Eucharist.

### PHILOSOPHY

Five Hours a Week. Written Theses Twice a Week.

**Logic.**—Dialectics: Simple Apprehension, Terms, Definition, Division; Judgments, Proportion; Classification according to Quantity and Quality, Opposition, Equivalence, Conversion; Reasoning, underlying Principles, the Syllogism, its Laws and its Species, Induction, Method, the Circle.

**CRITICS:** Logical Truth and Falsity, Certitude, its Degrees, Elements and Kinds; Scepticism, Universal and Partial; Consciousness, the Senses, the Intellect; Nominalism, Conceptualism, Realism, Ultra-Realism; Testimony, Tradition, History, the New Criticism, Reason and Revelation; the Ultimate Motive of Certitude, Evidence. *Text Book:*—Coppens' *Mental Philosophy*, Laws of Thought, Clarke's *Logic*, Rickaby's *First Principles*, Tongiorgi, Liberatore, Urraburu for reference.

**Ontology.**—(A) Basic Notions; Being, Analogy, Unity, Identity, Distinction; Truth, Goodness, Evil; Act and Potentiality, Essence and Existence; Possibility, Extrinsic and Intrinsic; Substance, Hypostasis, Person, Accident, the Categories of Aristotle.

(B) Etiology : The Principle, the Cause, the Condition, the Occasion ; Matter, Primordial and Secondary ; Form, Substantial and Accidental ; Efficiency and Action ; Finality : the Exemplar ; Perfection.

**Cosmology.**—Qualities of Bodies, Quantity, Impenetrability, Space, Place, Motion and Time; Change—Substantial and Accidental; Atomism, Dynamism, Hylomorphism.  
*Text Book*:—*Coppens' Mental Philosophy*. *Jouin's Praelectiones Philosophiae with Rickaby's General Metaphysics*, *Urraburu* for referdnce.

### LATIN

Two Hours a Week. Written Exercise Once a Week.

**Authors.**—Cicero, Selections from Philosophical Works ; Plautus, *Duo Captivi*. Selections from Pliny and Seneca.

**Practice.**—Latin Dissertations on assigned subjects, oral or written. A weekly essay on a philosophical or literary topic.

### GREEK

Two Hours a Week. Written Exercise Once a Week.

**Authors.**—Æschylus, *Agamemnon* ; Plato, *Crito*, *Republic I* ; St. Basil on Greek Literature ; Pindar, *Olympic Odes* ; Aristophanes, *Birds*.

**Practice.**—Composition once a week.

### ENGLISH

Two Hours a Week. Written Exercise Once a Week.

**Precepts** : The Drama, its varieties and structure. Expository Style.

**Authors** : Prose, Carlyle's *Essay on Burns* ; Mathew Arnold's *Culture and Anarchy*.

Poetry : *Hamlet*, *Lear*, *Midsummer Night's Dream*.

**Practice.**—Analysis and Discussion of the Standard Authors.

## CHEMISTRY

Five Hours a Week, with Exercises Twice a Week,  
and Three Hours a Week allowed for Laboratory Work.

**General Chemistry.**—The fundamental laws and theories of the science are taught in connection with the descriptive chemistry of the metallic and non-metallic elements by means of lectures, recitations and work in the laboratory. The student is required to verify and illustrate experimentally the important principles and facts discussed in the lecture room. Careful manipulation, exact observation, accuracy in arriving at conclusions, neatness in note taking and thoroughness in all the work is expected from each student. The course, besides giving a knowledge of chemistry, constitutes an introduction to scientific methods of experimentation, observation, and reasoning and therefore not only meets the demands of a liberal education but lays the necessary foundation for more advanced and professional scientific work.

*Text Book* —*Alexander Smith, General Chemistry for Colleges.*

## HISTORY

Two Hours a Week

### Turner's History of Philosophy

**Ancient Philosophy.**—Oriental, Greek and Greco-Roman, Greco-Oriental; Philosophy of the Christian Era—Patristic, Scholastic (First and Second Periods). Modern Philosophy.

## MODERN LANGUAGES

Five Hours a Week, with Two Exercises a Week

**French, Spanish or German** is obligatory.

## ELOCUTION

One Hour a Week

**Dramatic and Oratorical Practice.** — Declamation, Extempore Speaking, Debates, Criticism and Discussion of Interpretation and Delivery.

## SOPHOMORE CLASS

---

### CHRISTIAN DOCTRINE

Two Hours a Week.

Recitations Daily, Two Half-Period Lectures.

**DeHarbe's Full Catechism of the Catholic Religion, Part III—**  
On the Means of Grace. Practical Instructions.

### LATIN

Five Hours a Week. Written Exercises Twice a Week.

**Precepts.**—Yenni's and other Latin Grammars constantly consulted. Development of the Latin Speech; Study of Topics. Oratorical Analysis.

**Authors.**—Cicero, Pro Lege Manilia, Pro Milone, In Antonium (Selected); De Oratore, Brutus; Horace, Odes, Books II, III, IV, Epodes, Satires. Epistles, Carmen Saeculare; Juvenal, Selections.

**Practice.**—Composition in Prose and Verse, Sight Translation, Memory Work, Conversation; Written exercises twice a week—Bradley's Arnold's Latin Prose Composition.

### GREEK

Four Hours a Week. Written Exercises Twice a Week.

**Precepts.**—Yenni's and other Greek Grammars constantly consulted. Development of the Greek speech. Study of the Topics and Oratorical Analysis.

**Authors.**—Demosthenes, De Corona, Philippics; Aeschines, In Ctesiphontem; Sophocles, Oedipus Tyrannus, Antigone; Aeschylus, Prometheus Vinctus; Plato, Phaedo; Pindar, Selections; Thucydides, Selections. Plato, Phaedo.

**Practice.**—Composition, Sight Translation, Memory Work; Written exercises twice a week.

## ENGLISH

Four Hours a Week. Themes Twice a Week.

**Precepts.**—Orations, their classification and analysis; oratorical style and argumentation. *Text Book.*—*Coppens' Oratorical Composition.*

**Authors.**—Prose, Burke's Bristol Election Speech; Webster's Reply to Hayne, The Knapp Trial.

POETRY.—Paradise Lost, Books I, and II; Macbeth.

**History of English Literature.**—Civil War Period; 18th and 19th Centuries; American Literature. *Text Books.*—*Jenkins; Reference, Gosse and Saintsbury.*

## MECHANICS

Five Hours a Week. Written Exercises Twice a Week.  
First Session.

**Kinematics.**—Motion, Acceleration, Composition and Resolution of Velocities.

**Dynamics.**—Momentum, Newton's Laws of motion, Measurement of force, Central forces, Friction, Work and Energy, Conservation and correlation of Energy.

**Statics.**—Composition and Resolution of forces, Centre of Gravity, Machines, Lever, Balance, Steelyard, Toggle-joint. Compound Levers, Wheel and Axle, Toothed Wheels, Pulley, Inclined Plane, Wedge, Screw, Pendulum. *Text Book.*—*Dana.*

## ASTRONOMY

Five Hours a Week. Written Exercises Twice a Week.  
Second Session.

**Celestial Mechanics.**—Fundamental Problems, the Earth, the Moon, the Sun, Eclipses and Tides, the Planets, Comets and Meteors, the Stars, Astronomical Instruments, Observations. *Text Book.*—*Young's Astronomy.*

## HISTORY

Four Hours a Week.

### **Guggenberger's General History of the Christian Era.**

Vol. II and III.

1. The Protestant Revolution. The Age of Charles V. The Protestant Revolution in England and Scotland. Protestant Revolution and Catholic Revival.
2. The Wars of the Protestant Revolution. The Huguenot Wars in France. Philip II, Mary Stuart and Elizabeth. The Thirty Years' War. The Puritan Revolution. The Age of Louis XIV.
3. Causes of the Social Revolution. The Hanoverian Succession. The making of Russia. Maria Theresa and Frederic II. Wars of the Austrian Succession. The Colonies of North America. The Seven Years' War. The Division of Poland. Causes of the Political and Social Revolution of the Eighteen Century. The American War of Independence.
4. The French Revolution. The Era of Napoleon I. Catholic Emancipation in Great Britain.
5. The European Revolution. The Revolution of the Barricades. The Revolution of the Cabinites. The Civil War in the United States and its Causes. Our Own Times.

## ELOCUTION

One Hour a Week.

**Dramatic and Oratorical Practice.**—Declamation. Extempore Speaking, Debates, Criticism and Discussion of Interpretation and Delivery.

# FRESHMAN CLASS

---

## CHRISTIAN DOCTRINE

Two Hours a Week. Recitation Daily.

Lectures, Two Half Periods

**De Harbe's Catechism of the Catholic Religion, Part II.—On the Commandments. Practical Instructions.**

## LATIN

Five Hours a Week. Written Exercises Twice a Week.

**Precepts.**—Thorough review of Prosody. Constant reference to Latin Grammar. Analysis of Latin Sentence and of Periodic Construction.

**Authors.**—Cicero, Pro Archia, Pro Marcello, Pro Ligario. Virgil, Æneid, Books II, V, VI, IX. Horace, Odes, Book I, Ars Poetica; Livy, Selections. Christian Hymnology, Selections. (Gerding, S. J.)

**Practice.**—Composition in Prose and Verse. Sight Translation, Memory Work, Conversation. Written exercises twice a week. Bradley's Arnold's Latin Prose Composition.

## GREEK

Four Hours a Week. Written Exercises Twice a Week.

**Precepts.**—Yenni's Greek Grammar. Accents, Dialects, Prosody, Greek Epic and Lyric Poetry.

**Authors.**—Homer, Iliad, Books II, VI, XXIV; St. Chrysostom, In Eutropium; Euripides, Hecuba, Iphigenia in Aulis; St. Luke, Gospel or Acts. Herodotus, Selections. Plato, Apology, Lyrics selected from various poets.

**Practice.**—Composition, Sight Translation, Memory Work; Written Exercises based on Authors, twice a week.

## ENGLISH

Four Hours a Week. Written Exercises Twice a Week.

**Precepts.**—Literary Style, Variety of Style, Narration, Description, Essays, Fiction, Principles of Construction, Plot, Character, Situation, Purpose. Versification; Nature and varieties of poetry. *Text Book* :—*Coppens' Introduction supplemented by the Professor.*

**Authors.**—PROSE.—Newman, Macaulay, Arnold, De Quincy.

POETRY.—Selections from Coleridge, Tennyson, Milton, Shelley (Palgrave's Golden Treasury). The Tempest, Julius Cæsar.

**History of English Literature.**—Anglo-Saxon, Transition, Early English, Middle English Periods. *Text Book* :—*Jenkins*

## MATHEMATICS

Five Hours a Week. Written Exercises Twice a Week.

First Session

**Wentworth's Plain and Spherical Trigonometry and Surveying.**

PLANE TRIGONOMETRY :—Trigonometric Functions of Acute Angles, the Right Triangle, Goniometry, the Oblique Triangle, Construction of Tables.

SPHERICAL TRIGONOMETRY :—The Right Spherical Triangle, Applications, Surveying—Field Instruments Land Surveying, Triangulation, Leveling, Railroad Surveying, City Surveying.

Second Session.

**Wentworth's Higher Algebra.**—Progressions, Indeterminate Coefficient, Binomial Theorem, Common Logarithms, Interests and Annuities, Choice, Chance, Continued Fractions, Scales of Notation, Theory of Numbers, Variables and Limits, Series, General Properties of Equations, Numerical Equations, Determinants, Complex Numbers.

**HISTORY**

Four Hours a Week.

**Guggenbergers General History of the Christian Era.**

Vol. I and II.

1. The Migration of the Nations. First Teutonic Invasions and Settlements. The Invaders of Italy. The Islam. The Franks, The Lombards and the Holy See. The Church and the State.
2. The Rise of the Empire. The Carolingians. The Northmen in Europe. The Making of Germany and the Rise of the Empire. The Exodus of the Normans. The contest about Lay-Investiture. The Greek Empire and the Schism.
3. The Crusades, the Rise of the Papacy. From the First Crusade to the Third Crusade. From the Third Crusade to the Invasion of the Mongols. The Last Crusades, from the Invasion of the Mongols to the Death of Boniface VIII.
4. The Causes of the Protestant Revolution. The exile of the Papacy and the great Western Schism. The Hundred Years' War and the War of the Roses. Consolidation of the European Monarchies. Character of the Period.

**COMMERCIAL LAW**

Two Hours a Week.

**Lyon's Text-Book on Commercial Law.**—Sources of Law, Contracts, Agency, Partnership, Corporations, Guaranty, Time to Sue, Sale of Goods. Commercial Paper, Shipping, Insurance, Interest and Usury, Telegraphs, Patents, Bankruptcy, Real Estate.

**ELOCUTION**

One Hour a Week.

**Dramatic and Oratorical Practice.**—Declamation. Extempore Speaking, Debates, Criticism and Discussion of Interpretation and Delivery.

## **SCIENTIFIC COURSE**

### **Leading to the Degree of Bachelor of Science**

---

The branches studied in this course correspond to those of the foregoing classical or A. B. course. Latin or Greek or both are replaced by advanced studies in Sciences, Mathematics and Laboratory work at the discretion of the Prefect of Studies and the Professors of various departments. For more detailed information see pages 32-43

## **THE POST-GRADUATE COURSE**

---

Graduates of Loyola who successfully pursue some learned profession, may obtain the degree of A. M., two years after graduation.

Every aspirant for the degree of A. M. is required to write an essay on some literary, scientific or philosophical subject proposed by the faculty.

## Course of Wireless Telegraphy

---

The rapid development of Wireless Telegraphy along scientific and commercial lines has opened a new and everwidening field for ambitious young men.

Recognizing the need of thoroughly trained operators, Loyola University has opened a Wireless Department, presided over by a staff of competent and well-known instructors.

The course offered has been prepared not only (a) to fit the student to pass the Government Examination for Radio Operator's License, but also (b) to instruct him in the theory, design and construction of apparatus, and its actual uses and operation.

To attain these ends, a complete wireless station has been erected. The sending set consists of a 5 K. W. transmitter, and the receiving instruments are of modern construction, and capable of receiving messages from distant stations. The student also has access to the physical and chemical laboratories of the University.

### ADMISSION.

Applicants for admission must show proof that they have completed a course of study equivalent to a Grammar School course.

### COURSE OF STUDIES.

The following is a general list of subjects embraced in the course:

Code of Practice.

Elementary Electricity.

Motors.

Generators.

Storage Batteries.

Transmitting Apparatus.  
Receiving Apparatus.  
U. S. Radio Laws and Regulations.  
Internal Regulations.  
Practical Operation of Station.

### **FEE.**

Tuition fee for full course (8 months).....\$56.00

### **REGISTRATION.**

Students are required to register between September 4th and September 9th.

Studies begin on September 11th.

Further information will be furnished at any time on request.

# TUITION FEE AND EXPENSES

IN THE

**Department of Arts and Sciences.**

---

The Tuition Fee is \$80.00 per annum, payable one-half in September, the other half in February.

|                                               |          |
|-----------------------------------------------|----------|
| Use of Chemicals and Apparatus per annum..... | \$ 10.00 |
| Deposit for Breakage .....                    | 5.00     |
| Diploma .....                                 | 10.00    |
| Athletic Fee .....                            | 5.00     |

## **HONORARY DEGREES**

---

### **THE DEGREE OF DOCTOR OF LAWS**

WAS CONFERRED UPON

HON. ISAIAH D. MOORE, LL. B.

---

### **THE DEGREE OF DOCTOR OF PHILOSOPHY**

WAS CONFERRED UPON

JOSEPH A. DANNA, M. D.

HOMER DUPUY, A. M., M. D.

---

### **THE DEGREE OF BACHELOR OF ORATORY**

WAS CONFERRED UPON

ALFRED J. BONOMO, A. B. LL. B.

---

## **DEGREES IN COURSE**

---

### **THE DEGREE OF BACHELOR OF ARTS**

WAS CONFERRED UPON

SIDNEY L. TIBLIER

WILHELM J. WAGUESPACK, JR.

THE HIGHEST HONORS OF THE CLASS  
WERE WON BY

SIDNEY L. TIBLIER

**THE DEGREE OF BACHELOR OF LAWS**

WAS CONFERRED UPON

JULES F. ANDERSON  
JOHN E. BURGOYNE  
NICHOLAS G. CARBAJAL  
HAROLD F. COLTON  
CHARLES J. CONKLIN  
HENRY B. CURTIS  
THOMAS D. DIMITRY, JR.  
RICHARD A. DOWLING  
JAMES K. GAUDET  
FELIX W. GAUDIN  
EUGENE S. HAYFORD  
ROBERT L. INDEST  
GEORGE L. MASSIE  
F. FOSTER MICHON

GEORGE PIAZZA  
JAMES RIPPARD  
ERNEST L. ROBIN  
GASTON ROSE  
SIDNEY L. SAMBOLA  
JAMES G. SCHILLIN  
WM. G. SMART, JR.  
JOHN ST. PAUL, JR.  
JOSEPH G. WENZEL  
FRANCIS WILLIAMS

## THE DEGREE OF DENTAL SURGERY

WAS CONFERRED UPON

CHARLES A. ADOLPH.  
 JAMES JOSEPH ARROYO.  
 JOSE R. FERRO y CASTRO.  
 FELIPE PIERALDI y CEDENO.  
 ALBIN P. DANSEREAU.  
 BEN B. MATTHEWS.  
 GUILLERMO L. SELLES y SMITH.  
 JESSE E. ST. AMANT.  
 ANTON C. TRANCHINA.

## THE DEGREE OF GRADUATE IN PHARMACY

WAS CONFERRED UPON

J. AL. AMISS, JR.  
 WILLIAM BROUSSARD.  
 FRANK JOSEPH CALDERONE.  
 BAILEY E. CHANEY.  
 LOVIS K. CROSBY.  
 THEODORE GEORGE DEILER.  
 MISS LULU LEONTINE DI BETTA.  
 JOHN CHARLES HODGE.  
 CLARENCE ALLEY JOLLY  
 BENJAMIN F. KITTRELL.  
 JULES SIDNEY LABE.  
 BERNARD P. MARTINEZ.  
 JOHN P. MC.NULTY.  
 ARTHUR C. MORELAND.  
 VIVIAN J. OULLIBER.  
 LOUIS ARISTEE POCHE.  
 YOUEL C. SMITH.  
 OSCAR TABIO y LANZA.  
 BENIGNO USABIAGA y LLAGUNO.  
 AUGUST JOSEPH WAGNER.

**Certificates for the Successful Completion  
of the Course in Radiography**

WERE CONFERRED UPON

WALTER C. DE ROUEN,

PETER JOSEPH MILLER,

CHARLES E. ROCH.

## **AWARD OF MEDALS**

---

### **THE REV. A. E. OTIS, S. J., MEDAL**

FOR

EXCELLENCE IN CHRISTIAN DOCTRINE

DONATED BY

A FRIEND

WAS MERITED BY

**SIDNEY L. TIBLIER**

NEXT IN MERIT :

WILHELM J. WAGUESPACK, JR.

---

### **THE ALUMNI GOLD MEDAL**

FOR

MENTAL PHILOSOPHY

DONATED BY THE

JESUIT ALUMNI ASSOCIATION

OF NEW ORLEANS.

WAS MERITED BY

**SIDNEY L. TIBLIER**

NEXT IN MERIT

WILHELM J. WAGUESPACK, JR.

---

### **THE CLAUDEL GOLD MEDAL**

FOR

THE NATURAL SCIENCES

DONATED BY

MR. EDWARD CLAUDEL

WAS MERITED BY

WILHELM J. WAGUESPACK, JR.

**THE HAUSMANN GOLD MEDAL**

FOR THE BEST  
ENGLISH ESSAY

DONATED BY  
T. HAUSMANN & SONS

WAS MERITED BY  
**HENRY C. PREVOST, Jr.**

NEXT IN MERIT  
WILLIAM P. BURKE, JR.

---

**THE ONORATO GOLD MEDAL**

FOR  
THE BEST LATIN PAPER

DONATED BY  
MR. J. L. ONORATO  
WAS MERITED BY  
**CLAUDE V. PERRIER**

---

**THE CLARK GOLD MEDAL**

FOR  
THE BEST PAPER IN MATHEMATICS

DONATED BY  
RUSSELL CLARK, A.B., LL.B.

WAS MERITED BY  
**CLAUDE V. PERRIER**

## LIST OF GRADUATES

---

### A. B.

- 1856—Capdevielle, Auguste, M. D.  
Fréret, James (Architect).  
1857—Fréret, Jules.  
1858—Dejean, Eugene.  
Mouton, Edward.  
Sheldon, William J.  
1862—Capdevielle, Paul, Hon.  
Dufour, Elmore.  
Fehrenbach, Edward.  
Livaudais, A. E.  
1863—Layton, Thomas M. D.  
Sauvage, Edward.  
Zeringue, Edmond.  
1868—Dufour, Edgar.  
Ogden, Charles D., LL. B.  
Richardson, Eugene.  
1870—Capdevielle, Armand.  
Skinner, Edward K., LL. B., Hon.  
1872—Buchanan, Benjamin., LL. B.  
Lavillebeuvre, Chas. A., LL. B., Hon.  
1881—Deville, Ernest P.  
Fisher, John B., LL. B., Hon.  
Mortimer, Robert.  
Théard, Alfred.  
1882—Bayon, Henry, M. D.  
Finney, Mark L., M. D.  
Grace, Thomas E., LL. B.  
Moran, Thomas C.  
1883—Bayle, Emile J., M. E.  
Buckley, Joseph P.  
Ross, Robert J.  
Sully, Charles L.  
1884—Boissonneau, Andrew.  
Dowling, James J. LL. B.  
Fitzpatrick, Andrew J., LL. B., Hon.  
Wogan, Jules M.  
Rocquet, Albert P., M. D.  
1885—La Vergne, Hugues J. de, LL. B.  
Marinoni, Ulysse P., LL. B.  
Puig, Felix G., LL. B.  
Soniat, Joseph M., M. D.  
Théard, Sidney L., M. D.

### A. B.

- 1886—Augustin, Numa J., LL. B.  
Bayle, Joseph.  
Murray, Hubert.  
Poché, Louis P.  
Reinerth, William.  
Reiss, Paul L., M. D., M. D. Par.  
1887—Burke, Nicholas J.  
Crane, Judson J.  
Hanemann, Louis, M. D.  
Hartwell, Chas. A.  
Maloney, Henry H., D. D. S.  
Maureau, Alphonse L., Rev., S. J.  
Pleasants, George J.  
Reinerth, Emile A.  
Rivet, J. H. Chas., Ph. M.  
Wogan, Victor L. (Architect)  
1888—Bernard, George R.  
Crane, Warren J.  
Chalaron, James F.  
De Mahy, Henry M. D.  
Leppert, William J.  
Maloney, Robert J., LL. B.  
Poché, Henry F.  
Poché, Oscar M., Rev., S. J.  
Rivet, L. Lucien.  
Rocquet, Adolphe L.  
Roy, William F.  
Wogan, John A.  
1889—Byrne, Charles.  
Cahill, Alphonse.  
Conery, Edward.  
De Monsabert, Arthur., Ph. M.  
Flemming, Alfred, LL. B.  
Hubert, Louis, LL. B.  
Landry, Maxime, M. D.  
Lincoln, Rixford, LL. B.  
Murray, John.  
Souby, Andrew, Rev.  
1890—Barnett, Edward, LL. B.  
Beven, Charles.  
Boisblanc, Louis.

**A. B.**

- 1890—Coleman, John.  
 Couret, Sidney, D. D. S.  
 Dunn, Joseph D.  
 Fernandez, Gabriel, LL. B.  
 Hanemann, Adolphe.  
 Higgins, Edward.  
 Hogan, Robert, LL. B.  
 Olivier, Victor.  
 Socola, Giunio.  
 Thiberge, Henry.
- 1891—Bayle, Jules.  
 Bonnemer, Charles, M. D.  
 Couret, Maurice, M. D.  
 Delery, Gaston.  
 Derbès, Numa.  
 Duggan, Joseph.  
 Feaheney, William.  
 Ferrandou, Edward.  
 Hogan, William.  
 Hubert, Joseph.  
 Morgan, Gibbs.  
 Reynès, Joseph.
- 1892—Cabirol, Edmond.  
 Cooper, Asahel, LL. B.  
 Devron, John, M. D.  
 Gelpi, Paul, M. D.  
 Gremillion, Cyriaque, M. D.  
 Landry, Arthur, LL. B.  
 Mauret, Albert, Rev.  
 McEnany, Vincent.  
 Murphy, Edmund, LL. B.  
 Rightor, Edward, LL. B.  
 Thompson, Raymond.  
 Vidrine, Eraste, LL. B.  
 Vidrine, Frederick.
- 1893—Barnett, Wade.  
 Bezou, Ralph.  
 Carreras, James.  
 Crabitès, Pierre, LL. B.  
 Derbès, Albert,  
 Fontaine, Juste, LL. B.  
 Thiberge, Narcisse, M. D.  
 Weilbaeher, August.

**A. B.**

- 1894—Bellocq, Léon, Rev., S. J.  
 Bonnemer, Albert.  
 Brooks, Robert, Rev., S. J.  
 Landry, Henry.  
 Mengelle, Victor.  
 Michel, George A.  
 Ricau, Gustave.  
 Schmitt, Joseph, Rev.
- 1895—Barland, David.  
 Castellanos, Joseph.  
 Darcantel, Guy, M. D.  
 Fernandez, Hugo.  
 Friedrichs, Carl, LL. B., Hon.  
 Higgins, Francis.  
 Kernion, George C. H., LL. B.  
 Lafargue André, LL. B.  
 Murray, Clinton, M. D.  
 Redon, Sidney,  
 Seemann, William, M. D.  
 Villars, René.
- 1896—Aubert, Octave.  
 Damiens, Hippolyte.  
 De Gruy, Joseph.  
 Delery, Joseph.  
 Devereux, Van Wickle.  
 Friedrichs, Ephraim, M. D.  
 Heath, Edward.  
 Murphy, Lawrence.  
 Ryan, William, Rev.  
 Schneidau, Charles, LL. B.  
 Vincent, Leo.
- 1897—Cleary, James Andrew.  
 Conery, William Peter.  
 Couret, Nelson Francis.  
 DeFuentes, Bertie David.  
 Forstall, Anatole Joseph.  
 Hémar, Charles Alfred.  
 Hutchinson, Daniel D., Rev., S. J.  
 Hutchinson, Robert Joseph.  
 Kathman, James Adam.  
 Layton, Thomas Lawn, M. D.  
 LeBreton, Emile St. Mesme.  
 Maloney, Robert Emmet, LL. B.

## A. B.

- 397—Renshaw, Edmund Evan.  
Tête, Henry, M. D.
- 398—Broderick, Joseph.  
Dessommes, Louis Gabriel.  
Duchamp, Charles A., LL. B.  
De Verges, Philip Joseph, M. D.  
Feaheney, Edward Joseph.
- 399—Walton, Robert Joseph.  
Flynn, Thomas Donovan, LL. B.  
Torre, Peter, Architect.  
Geary, William Joseph.  
Irwin, Edward Michael.  
Blancand, Gustave Peter.  
Fréret, Theophilus Allain.

Capdevielle, Paul.  
Couret, John Peter.  
Foley, Timothy, Rev. S. J.  
Llambias, Gus. Alphonse, LL. B.  
Nott, Albin James, B. E.  
Walton, James Joseph.
- 901—Baudéan, Charles.  
Baudéan, George.  
Billaud, Henry.  
Breslin, Arthur.  
Crump, Horace, M. E.  
Devron, William.  
Pascal, Gabriel.  
Roy, Harry.  
Romaguera, Frank, M. D.  
Tierney, John.  
Tierney, Robert.  
Weilbaeher, Oswald, M. D.
- 1902—Ader Henry, M. D.  
Bassich, Joseph, Rev. S. J.  
Burgunder, George.  
Donegan, John.  
Fréret, René.  
Gouaux, Frank, M. D.  
Harris, William, M. D.
- 1903—Atkinson, Dudley.  
Carbajal, Joseph, Rev. S. J.  
Dardis, Alexander.

## A. B.

- 1903—Dermody, Joseph.  
Flautt, Robert.  
Fleury, John, LL. B.  
Friedrichs, Camille.  
Grehan, Austin, B. E.  
Luria, Abram.  
McMurray, Henry, LL. B.
- 1904—Borman, Edward.  
Casey, Joseph, LL. B.  
Cefalu, Dominic B. E.  
Flotte, Alcee.  
Mailhes, Lawrence.  
Moore, James.  
Perret, St. John. LL. B.  
Perry, Francis E.
- 1905—Baudéan, Albert.  
Bordenave, Claude, M. D.  
Couret, William.  
Duplantier, Robert.  
Luria, Edward.  
Prat, Fernand.  
Ranson, John.  
Simms, Benjamin.  
Théard, Delvaille, LL. B.
- 1906—Atkinson, Jesse W.  
Colomb, Walter A.  
Devlin, Philip A.  
Elder, W. Henry.  
Larose, J. Browne, M. D.  
Lejeune, Marc L., B. E.  
Luck, Angelo J.  
Mulledy, Walter F.  
Renshaw, Donald  
Romaguera, Emile A.
- 1907—Bodet, Roy E., M. D.  
Buchler, Conrad A., LL. B.  
Indest, Robert L.  
O'Keefe, John A.  
Roy, Percy A., Rev. S. J.  
Théard, Albert L.
- 1908—Bell, Robert E.  
Beltran, Basil R. M. D.  
Casey, Byron J.

## A. B.

- 1908—Commagère, Felix J.  
 Devlin, Thomas A.  
 Goodspeed, Burris J.  
 Luck, Percy L.  
 McMaster, Carey, E.  
 Mottram, Harold M.  
 Mottram, T. Alva  
 Soniat, Theodore P.  
 Torre, Louis J.  
 White, A. Olivier  
 Williams, Augustus A., LL. B.  
 Wogan, John B.
- 1909—Claren, George W.  
 Clark, Russell, LL. B.  
 Dittman, Charles S., Jr.  
 Finney, John G.  
 Ford, George J.  
 Fourchy, Paul J.  
 O'Hara, William J., LL. B.
- 1909—Pareti, Auguste J.  
 Young, George J.
- 1910—Baudean, Henry L.  
 Devlin, John J., Architect.  
 Gelpi, Marcel G.  
 Marks, Sumter D.  
 Perret, J. Maxime, M. D.  
 Robin, Labasse J., M. D.  
 Thompson, Basil J.  
 Tones, Hadden C.
- 1911—Bonomo, Alfred J., L. L. B.  
 Brennan, John J.  
 Casey, Dennis A.  
 Cassegrain, Octave C., M. D.  
 Dubos, Louis J., M. D.  
 McMurray, Walter J.
- 1911—Troxler, Lucien J.  
 Waguespack, Herbert W., LL. B.
- 1912—Bassich, Raymond P.

## A. B.

- Desforges, Edward T.  
 Diaz, René  
 Durel, Edward A.  
 Everett, Christie E.  
 Miller, Henry J.  
 Nicholls, Thomas C., LL. B.  
 Robin, Ernest J.  
 Seeman, C. L.  
 St. Paul, John J.  
 Tonglet, William A.  
 White, Robert Emmet, LL. B.  
 Ziegler, Charles W.
- 1913—Rault, Joseph M.  
 Bendrat, William K.  
 Gately, Tracy T.  
 Indest, Pointis E.  
 Killeen, Joseph L.  
 Robin, Olivier J.  
 Ward, Henry A.
- 1914—Macheca, George M.  
 Hammett, Henry L.  
 Landry, Sidney V.  
 Meric, Edward C.  
 Choppin, Pierre F.  
 Curtis, Henry B.  
 Gaudin, F. Wilfred  
 Torre, Joseph P.  
 Burgoyne, John E.
- 1915—De Reyna, Milton R.  
 Roussel, William D.  
 Dayries, Provosty A.  
 Caire, Arthur A.
- 1916—Bernard, Gerard H.  
 Indest, Adolph W.  
 Jung, Theodore A.  
 Maduell, Henry J.  
 Sitges, Percy H.
- 1917—Tiblier, Sidney L.  
 Waguespack, Wilhelm J., Jr.

begin.

June 17th, Monday.....Commencement Exercises.

## OFFICERS AND FACULTY

---

REV. A. E. OTIS, S. J.,  
President of the University.

REV. MICHAEL J. WALSH, S. J.,  
Vice-President of the University.

REV. LEO M. BELLOCQ, S. J.,  
Treasurer of the University.

C. VICTOR VIGNES, A. M., D. D. S.,  
Dean, Professor of Prosthetic Dentistry.

JULES J. SARRAZIN, D. D. S.,  
Professor of Prophylaxis, Periodontia and Stomatology.

SAMUEL H. McAFEE, D. D. S.,  
Professor of Operative Dentistry and Crown and Bridge Work.

CHARLES S. TULLER, D. D. S.,  
Secretary, Professor of Oral Pathology and Therapeutics.

JACOB A. GORMAN, D. D. S.,  
Professor of Orthodontia and Dental Radiography.

SAMUEL S. GROSJEAN, D. D. S.,  
Professor of Dental Anatomy and Histology.

HOMER DUPUY, A. M., M. D.,  
Professor of Oral Surgery.

RIGNEY N. D'AUNOY, M. D.,  
Professor of General Histology, Pathology and Bacteriology.

REV. THOMAS CLARKE, Ph. D., S. J.,  
Professor of Chemistry and Metallurgy.

JOSEPH A. DANNA, M. D.,  
Professor of General Principles of Surgery.

L. MAURICE PROVOSTY, A. M., M. D.,  
Professor of Physiology.

JAMES JOSEPH RYAN, M. D.,  
Professor of Anatomy.

R. E. BODET, M. D.,  
Professor of Materia Medica and Pharmacology.

JOSEPH P. WAHL,  
Professor of Operative and Dental Anatomy Technics, Dental,  
Oral Surgery, Exodontia and Treatment of Fractures of the Jaw.

WILLIAM C. RICHARDSON, D. D. S.,  
Associate Professor of Prosthetic Technics.

WM. J. HEALEY, D. D. S.,  
Superintendent of Clinics.

### **Special Instructors.**

J. MAXIME PERRET,  
Histology, Pathology and Bacteriology.

REV. A. E. OTIS, S. J.,  
Ethics.

ALFRED J. BONOMO, LL. D.,  
Dental Law.

LEAVIN DePOORTER, M. D.,  
Oral Surgery.

C. A. WEISS, M. D.,  
Oral Surgery.

E. S. KEITZ, A. B., M. D.,  
Oral Surgery.

M. P. BOEBINGER, M. D.,  
Oral Surgery.

L. J. GENELLA, M. D., A. B., LL. B.,  
Physiology.

J. A. HENDERSON, M. D.,  
Surgery.

J. F. POINTS, M. D.,  
Surgery.

A. J. FORET, D. D. S.,  
Exodontia.

J. HAMILTON LANDRY, D. D. S.,  
Prosthetic Dentistry.

### **Demonstrators.**

EDWARD A. GAMARD, D. D. S.,  
Clinical Dentistry.

OSCAR L. LOEFFEL, D. D. S.,  
Clinical Dentistry.

HOWELL M. MOORE, D. D. S.,  
Clinical Dentistry.

A. E. PORTER, D. D. S.,  
Clinical Dentistry.

OTTO J. BURGER, M. D.,  
Anatomy.

## **ANNOUNCEMENT.**

The rapid strides of advancement in the profession of Dentistry have created new demands and aroused increased interest in dental education. Loyola University, not unmindful of her responsibilities, has met the new conditions by opening a Dental Department in which the course is strictly in accord with the demands of the perfectly equipped modern dental school. It is the aim of the School to develop safe, honest and practical dentists from the viewpoint of efficiency and service in behalf of public health. The public is demanding more well trained and well educated dentists, and for him who is ambitious to fill a useful and honorable place among his fellows, dentistry offers a fruitful field for his endeavors, and the faculty of Loyola University welcomes him as a co-laborer in this work.

For the greater benefit of the student body, it has been decided to have the Dental Clinic in Marquette Hall, thus giving all the advantage of its splendid equipment and perfect location.

## **SPECIAL NOTICE.**

Beginning with the session 1917-18 the course will be extended to four years.

## **ADMISSION OF STUDENTS.**

Students applying for admission later than ten days after the opening day of the session cannot be credited with a full course unless such delay is due to sickness, which must be vouched for by the certificate of a reputable practicing physician. In such case the date of admission shall not be later than twenty days from the opening day.

## **REQUIREMENTS FOR ADMISSION.**

A candidate may be admitted to this school without examination upon presenting a diploma from a high school or academy of recognized standing, or a certificate signed by a city or county superintendent of schools, or by a State superintendent of public education, showing that the possessor is entitled to fifteen units of high school credits.

## **To Those Who Are Not High School Graduates.**

There are many earnest young men who desire to study dentistry, but who are not graduates of a high school, academy or college. Such students are required to submit their credentials to the Vice-President of the University and to pass an examination in such additional subjects as may be needed to make the equivalent of a standard high school course of fifteen units.

### **Admission to Advanced Standing.**

Students may be admitted to the Junior and Senior year respectively, who present certificates from a recognized Dental College showing that the required courses for each year have been successfully completed.

The right is reserved to examine any applicant for advanced standing, if in the judgment of the Faculty that should be considered advisable.

Students who present credentials from a reputable literary or medical school for work done in branches taught in this school, may receive credit for such work.

A graduate of a reputable Medical College may enter the Junior class.

### **Requirements for Graduation.**

At the close of the fourth year a student who has passed all examinations satisfactorily receives the degree of Doctor of Dental Surgery (D. D. S.) on the following conditions:

He must be of age and of good moral character.

He must have passed a satisfactory examination in all the branches of the curriculum; must have attended the practical instructions in all departments, and the last course of instruction must have been at this college.

He must sign an agreement with the Dean to live up to the ethics of the profession.

The examinations are conducted orally, and in writing, and are held at the middle and close of each term, thus dividing the strain upon the student.

Prior to such examinations the candidate must have deposited with the school approved specimens of his work and performed the prescribed amount of work in the Operatory and Technical Laboratories.

### Students' Conduct.

At the beginning of each session the Dean will issue a set of rules governing conduct, attendance and scholarship, which the student will be required to observe.

The college reserves the right to terminate its connection with any student at any time, whenever such action may seem advisable, on the grounds of immoral or disorderly conduct, or failure to conform to the rules of the college.

### FEES FOR REGULAR SESSION.

|                      | Freshmen. | Sophomore. | Juniors. | Seniors. |
|----------------------|-----------|------------|----------|----------|
| Matriculation .....  | \$ 5.00   | \$ 5.00    | \$ 5.00  | \$ 5.00  |
| Tuition .....        | 150.00    | 150.00     | 150.00   | 150.00   |
| Dissecting Fee ..... | .....     | 10.00      | .....    | .....    |
| Graduation Fee ..... | .....     | .....      | .....    | 25.00    |
| Athletic Fee .....   | 5.00      | 5.00       | 5.00     | 5.00     |
|                      | <hr/>     | <hr/>      | <hr/>    | <hr/>    |
|                      | \$160.00  | \$170.00   | \$160.00 | \$185.00 |

Students will be required to make an annual deposit of \$10.00 to cover loss, breakage or damage to the property of the school. The deposit, less the charges made against it, is refunded to the student at the end of the session.

Payment of not less than one-fourth of the fees is required at the commencement of the session, the balance by January 1st ensuing.

No student will be admitted to examination for advancement or graduation until all indebtedness for instruction shall have been paid.

The expenses of a student during the eight months, including tuition, books, board and lodging, laundry and other incidentals, need not exceed \$350.00, and \$425.00 will be a liberal allowance.

### **Dental Instruments.**

Before a student is permitted to begin his work in the laboratories, he is required to procure the necessary instruments for his use.

In the Junior year when the student is ready to take up his practical work in the Operatory, he is required to have a complete operative outfit. This same outfit will be used in the Senior year and after graduation in actual practice. A complete instrument list is furnished each student at the time he matriculates.

### **Special.**

The next regular session of the Dental School will commence Wednesday, September 26th, 1917. Though information will be cheerfully furnished prospective students at any time, they are requested to report for Registration, between Monday, September 24th, and Saturday, September 28th.

For further information, address

C. VICTOR VIGNES, D. D. S.,

*Dean of the School of Dentistry.*

N. B.—Students beginning the study of Dentistry in 1917 will be required to take a four-year course, regardless of the date of matriculation.

## ANATOMY.

Prof. JAMES JOSEPH RYAN, M. D.  
 OTTO J. BURGER, M. D., Demonstrator.

Lectures and quizzes in Anatomy will be given in the Freshman year.

Osteology, Myology and Angiology will be completed during the first semester, and Neurology and Visceral Anatomy during the second semester of the sophomore year.

### Laboratory of Anatomy.

The Laboratory of Anatomy is completely equipped and situated in specially constructed quarters, due attention being given to light and ventilation. Dissection material, properly prepared, is always available. The laboratory is open daily and students are required to do their own dissections under guidance of Demonstrators. Recitations on student dissections as completed.

Text-book: Gray's Anatomy, American edition.

## CHEMISTRY.

REV. THOMAS CLARKE, S. J., Ph. D., Professor.

*Freshman Year.—Inorganic Chemistry and Metallurgy.*

The fundamental principles of Chemistry and Metallurgy are taught in connection with the occurrence, preparation and properties of the metallic and non-metallic elements and their compounds, by means of lectures, recitations and work in the laboratory. Particular attention is paid to the metals, alloys, amalgams, cements and other materials used in the practice of Dentistry. Practical work in the laboratory includes a course in qualitative analysis adapted to the needs of dentists.

Text-Books: Simon-Manual of Chemistry. Hepburn-Dental Metallurgy.

*Sophomore Year. —Organic and Physiological Chemistry*

The course in Organic Chemistry comprises a general outline of the carbon compounds. Particular attention is given to those compounds which are used in the practice of Dentistry or are of significance in dental medicine.

A brief outline of the chemistry of digestion, the tissues, the secretions, the excretions, and the metabolism of the human body is given in the course in physiological chemistry. Special attention is paid to the chemistry of saliva. Laboratory work consists mainly in the analysis of saliva, salivary calculi, urine, etc.

Text-Book: Simon-Manual of Chemistry.

### **DENTAL ANATOMY AND HISTOLOGY.**

PROF. S. S. GROSJEAN, D. D. S.

The subject of Dental Anatomy will be taken up and completed during the Freshman year and covered by lectures descriptive of the anatomy of the human teeth.

In the Laboratory of Technics the student will be required to make drawings, and carvings in plaster and ivory, of teeth furnished him for the purpose. He will also make dissections and studies of the internal parts of the teeth, pulp-chambers and root-canals.

Dental Histology will be completed in the Junior year. The laboratory work will consist of preparing and mounting slides on the subjects covered.

Text-books:

Black's Dental Anatomy.

Noyes' Dental Histology and Embryology.

### **GENERAL HISTOLOGY, PATHOLOGY AND BACTERIOLOGY.**

PROF. RIGNEY N. D'AUNOY, M. D.

PROF. J. MAXIME PERRET, M. D.

A thorough laboratory course covering these subjects, with special reference to the needs of the dental student, will be given in connection with the didactic teaching.

The preparation of slides will be demonstrated during the different laboratory periods, together with instruction in the drawing of typical microscopic fields.

## **GENERAL PRINCIPLES OF SURGERY.**

Prof. J. A. DANNA, M. D.

J. A. HENDERSON, M. D.

J. F. POINTS, M. D., Special Instructors.

The object of this course is to teach the student the principles of general surgical pathology and treatment.

The teaching is mostly done in the operating rooms of the Charity Hospital, where the student is shown in a practical manner the technic of surgical asepsis.

In the latter part of the course the senior student is taught the manner of preparing himself to assist in surgical operations and is permitted to assist in a limited number; thereby getting a practical knowledge of modern surgical technic.

## **MATERIA MEDICA.**

Prof. R. E. BODÉT, M. D.

This subject is of great importance to the Dentist. While he is not called upon to use as many drugs as the physician, he uses a number which are extremely poisonous and therefore dangerous to use unintelligently.

The lectures will consider the Official Name, English Name, Synonyms, Part Used, Botanical Name, Constituents, and especially their preparation and dosage, as also their physiological and toxic action.

All the terms essential to the comprehension of the subject will be defined and explained.

Prescription writing is a subject of extreme importance to the Dentist, and will therefore be explained in detail; he will be required to write prescriptions so as to become thoroughly familiar with the practical part of the subject.

Text-book: Buckley's Modern Materia Medica, Pharmacology and Therapeutics.

## **PROPHYLAXIS, PERIODONTIA and STOMATOLOGY**

Prof. JULES J. SARRAZIN, D. D. S.

This course will start in the latter half of the Freshman year, extend through the Junior session, and will be completed with the first half of the Senior term. The object of this schedule is to enter students in this special field of usefulness as early as possible, so as to allow them to develop skill therein before their graduation. Lectures, bacteriological tests and clinical demonstrations will combine to equip the student to assume the treatment, both local and systemic, of the various phases of oral sepsis and Riggs' Disease conditions which present themselves at the dental chair, to practice the preservation of health in as far as it is affected by mouth conditions, to help the advanced physician in his battle for the prevention of disease, and to assist the political economist in the struggle for increased efficiency. The demand of progressive medicine for the dentist capable of aiding the betterment of hygienic conditions must be met, to give humanity the service it needs.

Nature's Prophylaxis and general Pathology are the foundations of this course. It covers the local, artificial prophylactic means of modern dentistry, the various aspects of oral Sepsis and their Therapy, including the different pathological aspects thereof, the Etiology, the Incipency, the Development and the treatment of the various phases of Riggs' Disease, with their systemic complications and effects, all being within the scope of the practical training in these branches of study.

## **OPERATIVE DENTISTRY, CROWN AND BRIDGE WORK.**

Prof. SAMUEL H. McAFEE, D. D. S.

E. A. GAMARD, D. D. S.

OSCAR L. LOEFFEL, D. D. S.

HOWELL M. MOORE, D. D. S.

A. E. PORTER, D. D. S. Clinical Demonstrators.

There is so much in common and inseparable in these two important branches of dental practice that it has been deemed advisable to have them taught largely in connection, and by

the same chair. The courses therein will comprise lectures, recitations, practical demonstrations, laboratory courses in operative and crown and bridge technics, and actual practice upon patients in the clinics.

The lecture and recitation courses by the chair are for the purpose of establishing in the mind of the student the fundamental and scientific principles governing the various procedures. The technic courses are intended to further familiarize the student with these principles, and to develop manipulative skill in the use of instruments, methods and materials, preparing him, in a measure, for actual work in the clinics.

In the technic laboratories and in the clinics the student will be under the constant supervision and guidance of competent instructors who are prepared to demonstrate and follow closely the methods and principles taught by the chair.

The courses throughout are so planned as to enable the student to follow them closely and consecutively in the prescribed text-books and later literature, the study and recitation method predominating.

The efforts of the chair will be concentrated upon teaching modern methods throughout, no attention being given to the obsolete, and little to that which is of historical interest only.

In operative dentistry the established clinical features of injuries by caries, erosion, abrasion, etc., as well as the anatomical and histological characteristics of the teeth, and the inseparable relation these bear to scientific cavity preparation and to the application of remedial restorative measures, will be dealt with at length.

In crown and bridge work an effort will be made to develop correct and conservative judgment in its uses. The teaching will be concentrated upon a few carefully selected types of crowns, fixed and removable bridges, approved by modern practice. The application of the casting process, forms of detachable porcelain mountings, the use of platinum, the oxyhydrogen flame, etc., will have special attention.

Carefully compiled lists of instruments will be furnished and students will be required to provide themselves with these and the necessary text books, materials, etc., before entering the classes.

Text-books:

Operative Dentistry, Vols. I. and II. (Black).

Principles and Practice of Crown and Bridge Work  
(Goslee).

## **OPERATIVE AND CROWN AND BRIDGE TECHNICS.**

The course in Operative Technics comprises a study of the nomenclature, forms, constructions, uses and care of instruments according to what is known as Black's system; nomenclature of cavities and important terms used in operative dentistry; a study of the forms and locations of cavities in extracted teeth; preparation of cavities in large plaster models, typodonts, bone or ivory teeth, and in extracted teeth; filling materials and their manipulation; filling prepared cavities with the various cements, amalgam, tin, gold foil, gold inlays, etc.

The course in Crown and Bridge Technics comprises taking impressions, constructing models for technic purposes; preparation of teeth for the application of various forms of crowns; soldering, construction of crowns and bridges of several forms; construction of detachable backings and copings; the use of the casting process in crown and bridge work, etc.

## **DENTAL AND ORAL SURGERY, EXODONTIA AND TREATMENT OF FRACTURES OF THE JAWS.**

PROF. J. P. WAHL, D. D. S.

Dental and Oral Surgery, and Exodontia in every phase will be taught by illustrated lectures, and actual clinical work; putting in practice the very latest methods in operative procedure.

The Senior Class will be required to witness and actually perform operations at the Charity Hospital Clinic. Three periods each week.

A series of lectures on this important subject will be given in the Senior year. The students will have the opportunity of assisting in the treatment of actual cases at the Charity Hospital clinic.

## **ORAL PATHOLOGY, THERAPEUTICS AND MINOR ORAL SURGERY.**

PROF. CHARLES SHEPARD TULLER, D. D. S.

WILLIAM J. HEALEY, D. D. S., Special Instructor.

These subjects are so completely welded together that it is practically impossible to treat them separately. The course begins in the first semester of the Junior Year with lectures and quizzes, followed by technic work by the student in natural teeth mounted in plaster casts. Thus the student works out a number of hypothetical cases under the demonstrator, following closely the program of the professor. The more ordinary cases are handled first, leaving the less frequent and more extraordinary to the latter part of the course, thus giving the student a fair foundation upon which to begin work in the infirmary, which practice he takes up at the beginning of the second semester, and from then on he handles actual cases in the mouth.

The lectures and work are continued through the Senior year, where quantities of splendid clinical material enable the students to see nearly every phase of diseased condition of the mouth and to treat them under the advice and supervision of capable demonstrators and of the professor.

In addition to lectures and quizzes the student sees numerous demonstrations of the delicate technic so necessary to the proper treatment of diseased conditions of the mouth and teeth. He is also aided by the liberal use of charts and black-board drawings. Special attention is given to modern methods of local anaesthesia and the special technic necessary to its success and by which it is now possible to perform the major part of our dental operations without pain. Great emphasis is laid

on the necessity of absolute cleanliness and thorough sterilization.

Text-books:

Black's Special Dental Pathology, 1915 edition.

Burchard's Dental Pathology and Therapeutics, 1915 edition.

Buckley's Modern Materia Medica, Pharmacology and Therapeutics, third edition.

McConnell's Pathology and Bacteriology for Dental Students.

Thoma's Oral Anaesthesia.

## ORAL SURGERY.

Prof. HOMER DUPUY, A. M., M. D.

LEAVIN DEPOORTER, M. D.

C. A. WEISS, M. D.

E. S. KEITZ, A. B., M. D.

M. P. BOEBINGER, M. D., Special Instructors.

The ample material in the wards of the Charity Hospital and the abundance of materials from the out-clinics, furnish unusual opportunities for teaching oral surgery in its broadest aspects. The specific end kept in view is to make the Dental Student more medical by increasing his fund of knowledge in correlated and borderline subjects. This must in turn render him more efficient and more resourceful.

Mindful of this ideal in dental education, the student is put in touch with the latest methods in the diagnosis and treatment of the more common affections of the ear, nose, and throat.

The question of adenoids, faucial tonsils, nasal obstruction, is considered in every detail through illustrated lectures and by practical demonstration with clinical cases. One hour, or more, of the week is set aside for the study of cases in the out-patient service of the hospital.

Every Monday the student is required to witness the induction of anaesthesia, local and general, in the removal of faucial and pharyngeal tonsils.

Special attention is given to the pathologic significance of diseases of the nasal accessory sinuses.

Didactic lectures, illustrated by lantern slides, are given once a week. The students have access to the operative clinics of Profs. Dupuy, DePoorter, and Weiss, at the Hotel Dieu, whenever head operations of particular interest to the dental student are scheduled.

## **ORTHODONTIA AND RADIOGRAPHY.**

Prof. J. A. GORMAN, D. D. S.

Realizing that Orthodontia can best be practiced as a specialty, it still remains necessary for the general practitioner to have a knowledge of the fundamental principles of the subject.

Orthodontia being the science of occlusion, a study of the forces which cause the teeth to assume their proper position in the dental arch as well as a study of the etiology of mal-occlusion and its classification, pathological conditions of the nose and throat and their relation to the development of the dental apparatus, will be considered.

The principles of regulating appliances, including the various forms of anchorages, the proper employment of the appliances in the treatment of the different classes of mal-occlusion, the tissue changes incident to tooth movement and the different forms of retention will be explained in lectures and shown in the clinic.

Particular attention is given to preventive measures, the care of deciduous teeth and the corrective treatment during the eruption of the permanent teeth.

The Technic Laboratory work consists of free-hand soldering, adjusting, regulating and retaining appliances, and the making of accurate models.

Cases will be treated in the clinic under the supervision of the professor.

The use of the X-ray as a diagnostic aid in dentistry will be presented in a series of lectures and clinics.

Stress will be laid upon the proper interpretation of X-ray films and plates.

In addition to the practical use of the X-ray in dental diagnosis, the student will have the further advantage of the Laboratory of Radiography of the professor of this branch, where much instructive material may be seen in the course of the year.

Text-book:

Angle's Orthodontia.

## PHYSIOLOGY.

Prof. L. M. PROVOSTY, A. M., M. D.

L. J. GENELLA, M. D., A. B., LL. B., Special Instructor.

Instructions in this branch are both didactic and practical. The subject will be covered in fifty-six lectures: distributed into two lectures a week from October to May.

Students will be required to witness and to perform experiments in the Laboratory of Physiology.

In the first semester of the Junior year particular attention will be given to physiological facts having a special bearing on the teeth in their relation to the general economy.

Text-book: Kirk's Physiology.

## PROSTHETIC DENTISTRY.

Prof. C. VICTOR VIGNES, A. M., D. D. S.

W. C. RICHARDSON, D. D. S., Associate Professor.

J. H. LANDRY, D. D. S., Special Instructor.

As a thorough knowledge of the physical and other properties of plaster of Paris and other materials used in taking impressions of the mouth and for making models and casts is necessary before they can be properly used by the student for the purposes intended, experiments and tests illustrative of the points involved will be carried out in the Laboratory of Chemistry, following closely the lectures on the subject.

Experimental tests of vulcanite, showing its composition before and after vulcanization, will be made in the Chemical

Laboratory simultaneously with the lectures covering the matter. Its physical properties will be demonstrated in the Laboratory of Physics to bring out clearly its advantages and disadvantages as a base in prosthesis.

The nature and physical properties of the different metals used in dentistry will be described and experiments showing their fusibility, malleability, ductility, and conductivity will be made in the Laboratory of Metallurgy.

For the better instruction of the student the process of making porcelain teeth will be fully illustrated, beginning with the crude materials that enter into their composition and showing every successive step in their manufacture.

The different articulators will be considered in relation to their use in the scientific anatomical articulation of the teeth.

The preparation of the mouth for the reception of artificial dentures will be carefully considered and the conditions and difficulties usually met with called to the attention of the student.

In the Clinic the student will be required to construct practical cases for patients, thus obtaining a full knowledge of this most important branch of dentistry.

In the Laboratory of Technics, instruction in the construction of artificial dentures upon all bases in common use will follow closely the teaching from the chair. Demonstrations in every step leading to the completion of the different prosthetic pieces will be given by the demonstrators in charge of the laboratory.

The student will be required to have all the instruments necessary to perform this work at the time the classes open. Suitable lockers will be assigned for their safekeeping upon matriculation.

Text-book:

Wilson's Dental Prosthetics.

## ACKNOWLEDGMENT.

We hereby express our thanks to our kind friends for donations to the Museum and Library of the College.

REV. A. E. OTIS, S. J.,

President of the University.

REV. MICHAEL J. WALSH, S. J.,

Vice-President and Prefect of Studies of the University.

REV. LEO BELLOCQ, S. J.,

Treasurer of the University.

MR. JOHN ST. PAUL, A. M., LL. D.,

Dean of the Law School.

MR. ALFRED J. BONOMO, A. M., LL. B.,

Secretary of the Law School and Lecturer on Common Law  
Tenures and Common Law Pleading.

MR. ST. CLAIR ADAMS, LL. B.,

Lecturer on Evidence, Criminal Procedure and Crimes.

MR. JOS. A. BREAUX, LL. D.,

Lecturer on Successions, Donations and Testaments.

MR. ALEXIS BRIAN, A. M., LL. B.,

Lecturer on the Code of Practice.

MR. WM. H. BYRNES, LL. D.,

Lecturer on Torts and Insurance.

MR. HUGH C. CAGE, LL. B.,

Lecturer on Contracts and Obligations in General.

MR. WM. K. DART,

Lecturer on Constitutional Law.

MR. CHARLES I. DENECHAUD, LL. B.,

Lecturer on Domestic Relations and Property Rights.

MR. WALTER GLEASON, LL. B.,

Lecturer on Corporations and Receivers.

MR. CLARENCE S. HEBERT, A. M., LL. D.,

Lecturer on Civil Code.

REV. MICHAEL KENNY, S. J.,

Lecturer on Fundamental Law.

MR. BENJAMIN KERNAN, LL. B.,

Lecturer on Warehousemen, Carriers and Shipping.

MR. GUSTAVE LLAMBIAS, A. B., LL. B.,

Lecturer on Agency.

MR. HENRY MOONEY, LL. B.,

Lecturer on Commerce Factors and Traders, Bills and Notes,  
Banking.

MR. I. D. MOORE, LL. B.,

Lecturer on Municipal Corporations.

MR. THEODORE ROEHL, LL. B.,

Lecturer on Theory of Law, Interpretation of Laws and Conflict  
of Laws.

MR. WM. J. WAGUESPACK, A. B., LL. B.,

Lecturer on Federal Jurisdiction and Procedure, Bankruptcy and  
Equity.

## SCHOOL OF LAW

---

### Historical Statement.

LOYOLA LAW SCHOOL was established in October, 1914. During the first year of its existence, the classes were held in the Alumni Hall of the College of the Immaculate Conception, Common and Baronne Streets. An increase in the student body made the removal of the School necessary, and it was decided to use the spacious halls of the University.

### Location.

The University is located on St. Charles Avenue, opposite Audubon Park. The Law School is housed in Marquette Hall, the main building, thus affording ample space for all the purposes of that Department. Several car lines put it in easy reach from all parts of the city.

### Course of Studies and System of Instruction.

The Course of Studies embraces the entire field of law, but has been mapped out with the special end in view of qualifying the student for practice before the State Courts of Louisiana and the Federal Courts generally. It is, however, sufficiently broad in its scope to cover both the law and practice of other States. Evening classes were decided upon, partly as offering opportunities to many ambitious and worthy young men whose occupations would deprive them of an opportunity to acquire a profession, and partly in order that students might be able to combine the practical with the theoretical side of the law by entering the offices of practicing attorneys and benefiting by the experience thus gained. The text-book and lecture system is followed throughout the entire course, and reference is made to leading cases on the important points of each subject. The student is required to read the daily assignment in each course before the class session. The professor then lectures on the text

assigned, comments on the leading cases, points out difficulties, and explains them. Later, quizzes are held covering the same matter, in which the student is questioned and made to apply the principles studied. In this way, he is given every opportunity to attain a fair mastery of each particular branch.

The full Course of Studies covers a period of three years, at the end of which the Degree of Bachelor of Laws is conferred on those who have successfully passed the required examinations. This degree entitles the recipient to practice before all State and Federal Courts in Louisiana.

### **Sessions.**

The regular session begins on the first Monday in October of each year, and extends to the end of the following May, thus covering (exclusive of all holidays) thirty full weeks. The regular examinations take place in the first half of the month of June, although occasional examinations may be held during the session when more convenient.

The classes extend over five days of the week (Monday to Friday), and cover, altogether, three hours each evening (from 7 to 10). They are arranged, however, so that a student is required to attend only about twelve hours a week.

### **Requirements for Admission and Graduation.**

Applicants for admission must have completed their eighteenth year at the time of application, and must be graduates of a High School of recognized standing. Students who have not completed a High School course may be admitted, if, in the opinion of the Prefect of Studies of the University, they have completed a course of studies which is equivalent.

Students who have completed the full three years' course, and passed satisfactorily the required examinations, will be entitled to the degree of Bachelor of Laws (LL. B.) on the regular commencement day of the University, provided they have then completed their twenty-first year, or shall complete the same on or before the first Monday in October next thereafter.

### **Fees and Expenses.**

|                         |         |

| Library Fee .....       | 5.00    |
| Athletic Fee .....      | 5.00    |
| Graduation Fee .....    | 10.00   |

The tuition fee is payable quarterly, in advance, viz: on date of Registration, and on the first day of December, February and April. All other fees must be paid on date of Registration. Students in arrears will not be permitted to take the examinations in the month of June. The graduation fee is payable but once, and must be paid before delivery of the diploma.

Outside of the Louisiana Civil Code and Code of Practice, the yearly cost of text-books should not exceed \$30.00.

### **Registration.**

Students intending to enter the School must register between the last Monday in September and the first Monday in October. For good and sufficient reasons, students may be allowed an additional delay in which to enter, but under no circumstances will a student be given credit for a full course who fails to register within one week after the opening of the session.

### **Law Library.**

A well-selected Law Library, comprising the latest editions of standard text-books, reports of the Federal Courts, and the leading State reports, has been established for the accommodation of students. The fund created by payment of the Library Fees is set apart for investment in books for the library.

# PROGRAM OF INSTRUCTION

## FIRST YEAR.

- 1—PERSONAL RELATIONS AND  
PROPERTY RIGHTS.....Mr. Denechaud  
(One hour per week, whole term.)  
Text-Book: Louisiana Civil Code, Books I and II.
- 2—SUCCESSIONS AND TESTAMENTS.....Mr. Breaux  
(One hour per week, whole term.)  
Text-Book: Louisiana Civil Code, Book III, Titles 1 and 2.
- 3—CONTRACTS AND OBLIGATIONS  
IN GENERAL.....Mr. Cage  
(One hour per week, whole term.)  
Text-Book: Louisiana Civil Code, Book III, Titles 3, 4, 5.
- 4—SUNDRY SPECIAL CONTRACTS.....Mr. Hebert  
(One hour per week, whole term.)  
Text-Book: Louisiana Civil Code, Book III, Titles 6 to 14.
- 5—ACCESSORY CONTRACTS, PRIVILEGES,  
PRESCRIPTION .....Mr. Llambias  
(One hour per week, whole term.)  
Text-Book: Louisiana Civil Code, Book III, Titles 15 to 23.
- 6—CIVIL PROCEDURE (STATE COURTS).....Mr. Brian  
(One hour per week, whole term.)  
Text-Book—Louisiana Code of Practice.
- 7—TORTS .....Mr. Byrnes  
(One hour per week, first half term.)  
Text-Book: Burdick.
- 8—INSURANCE .....Mr. Byrnes  
(One hour per week, second half term.)  
Text-Book: Vance.

- 9—BILLS AND NOTES .....Mr. Mooney  
 (One hour per week, first half term.)  
 Text-Book: Norton.
- 10—BANKS AND BANKING .....Mr. Mooney  
 (One hour per week, second half term.)  
 Text-Book: Tiffany.
- 11—HISTORY OF LAW .....Mr. Roehl  
 (One hour per week, first half term.)  
 Text-Book: —
- 12—FUNDAMENTAL LAW (GENERAL  
 JURISPRUDENCE) .....Rev. M. Kenny, S. J.  
 (One hour per week, whole term.)  
 Text-Book: Robinson.

## SECOND YEAR.

- 13—CIVIL CODE .....Mr. Denechaud  
 (One hour per week, whole term.)  
 Continuation of Course No. 1.
- 14—CIVIL CODE .....Mr. Breaux  
 (One hour per week, whole term.)  
 Continuation of Course No. 2.
- 15—CIVIL CODE .....Mr. Cage  
 (One hour per week, whole term.)  
 Continuation of Course No. 3.
- 16—CIVIL CODE .....Mr. Hebert  
 (One hour per week, whole term.)  
 Continuation of Course No. 4.
- 17—CIVIL CODE .....Mr. Llambias  
 (One hour per week, whole term.)  
 Continuation of Course No. 5.

- 18—PRIVATE CORPORATIONS .....Mr. Gleason  
(One hour per week, whole term.)  
Text-Book: Marshall.
- 19—EVIDENCE .....Mr. Adams  
(One hour per week, first half term.)  
Text-Book: McKelvey.
- 20—CRIMES .....Mr. Adams  
(One hour per week, second half term, every alternate year.)  
Text-Book: Clark and Marshall.
- 21—CRIMINAL PROCEDURE .....Mr. Adams  
(One hour per week, second half term, every alternate year.)  
Text-Book: Beale.
- 22—CONSTITUTIONAL LAW .....Mr. Dart  
(One hour per week, whole term.)  
Text-Book: Cooley.
- 23—CARRIERS .....Mr. Kernan  
(One hour per week, first half term.)  
Text-Book: Goddard.
- 24—SHIPPING AND ADMIRALTY .....Mr. Kernan  
(One hour per week, second half term.)  
Text-Book: Hughes.
- 25—STATUTORY CONSTRUCTION .....Mr. Roehl  
(One hour per week, first half term.)  
Text-Book: Black.
- 26—CONFLICT OF LAWS .....Mr. Roehl  
(One hour per week, second half term.)  
Text-Book: Minor.
- 27—EQUITY JURISPRUDENCE .....Mr. Waguespack  
(One hour per week, first half term.)  
Text-Book: Bispham.
- 28—EQUITY PLEADING .....Mr. Waguespack  
(One hour per week, second half term.)  
Text-Book: Equity Rules.

**THIRD YEAR.**

- 29—CODE OF PRACTICE .....Mr. Brian  
 (One hour per week, whole term.)  
 Continuation of Course No. 6.
- 30—TORTS .....Mr. Byrnes  
 (One hour per week, first half term.)  
 Continuation of Course No. 7.
- 31—INSURANCE .....Mr. Byrnes  
 (One hour per week, second half term.)  
 Continuation of Course No. 8.
- 32—BILLS AND NOTES .....Mr. Mooney  
 (One hour per week, first half term.)  
 Continuation of Course No. 9.
- 33—BANKS AND BANKING .....Mr. Mooney  
 (One hour per week, second half term.)  
 Continuation of Course No. 10.
- 34—PRIVATE CORPORATIONS .....Mr. Gleason  
 (One hour per week, first half term.)  
 Continuation of Course No. 18.
- 35—EVIDENCE .....Mr. Adams  
 (One hour per week, first half term.)  
 Continuation of Course No. 19.
- 36—CRIMES .....Mr. Adams  
 (One hour per week, second half term, each alternate year.)  
 Same as Course No. 20.
- 37—CRIMINAL PROCEDURE .....Mr. Adams  
 (One hour per week, second half term, each alternate year.)  
 Same as Course No. 21.
- 38—CONSTITUTIONAL LAW .....Mr. Dart  
 (One hour per week, whole term.)  
 Continuation of Course No. 22.

- 39—CARRIERS .....Mr. Kernan  
 (One hour per week, second half term.)  
 Continuation of Course No. 23.
- 40—SHIPPING AND ADMIRALTY .....Mr. Kernan  
 (One hour per week, second half term.)  
 Continuation of Course No. 24.
- 41—STATUTORY CONSTRUCTION .....Mr. Roehl  
 (One hour per week, first half term.)  
 Continuation of Course No. 25.
- 42—CONFLICT OF LAWS .....Mr. Roehl  
 (One hour per week, second half term.)  
 Continuation of Course No. 26.
- 43—FEDERAL PROCEDURE .....Mr. Waguespack  
 (One hour per week, first half term.)  
 Text-Book: Montgomery.
- 44—BANKRUPTCY .....Mr. Waguespack  
 (One hour per week, second half term.)  
 Text-Book: Bankruptcy Statute.
- 45—MUNICIPAL CORPORATIONS .....Mr. Moore  
 (One hour per week, whole term.)  
 Text-Book: Cooley.
- 46—INTERNATIONAL LAW .....Mr. St. Paul  
 (One hour per week, whole term.)  
 Text-Book: Wilson.
- 47—COMMON LAW TENURES .....Mr. Bonomo  
 (One hour per week, first half term.)  
 Text-Book: Warvelle.
- 48—COMMON LAW PLEADING .....Mr. Bonomo  
 (One hour per week, second half term.)  
 Text-Book: —

# COLLEGE OF PHARMACY

## OFFICERS

|                                   |                                    |
|-----------------------------------|------------------------------------|
| REV. ALPHONSUS E. OTIS, S. J..... | <i>President Loyola University</i> |
| M. T. BRESLIN.....                | <i>President</i>                   |
| F. C. GODBOLD.....                | <i>Vice-President</i>              |
| J. E. SCOTT.....                  | <i>Secretary-Treasurer</i>         |

## BOARD OF TRUSTEES

|                   |                            |
|-------------------|----------------------------|
| M. T. BRESLIN,    | PHILIP ASHER, M. D., M. S. |
| GEO. W. McDUFF,   | F. C. GODBOLD,             |
| A. O. KACZOROSKI, | A. DI TRAPANI,             |
| J. E. SCOTT,      | P. A. CAPDAU,              |
| F. A. EARHART.    | E. H. DASTE,               |

1600, 1602, 1604, 1606 St. Charles Ave.

NEW ORLEANS, LA.

## CALENDAR

1916.

Examination for admission to the Junior Class

*Wednesday, September 21st*

Examination for admission to the Senior Class

*Thursday and Friday, September 22nd and 23rd*

Examination for Scheele Free Scholarship

*Friday, September 22nd*

Lectures begin

*Tuesday, September 27th*

1917.

Final examinations begin (about).....*Monday, April 26th*

Session closes (about).....*Monday, May 22nd*

Commencement exercises (about).....*Monday, May 22nd*

## HOLIDAYS

Thanksgiving Day; All Saints Day; Christmas Holidays (December 20, 1916, to January 3, 1917, exclusive); Mardi Gras Eve and Mardi-Gras; Good Friday.

## FACULTY

---

PHILIP ASHER, Ph. G., M. D.,

Dean and Professor of Chemistry.

ADOLPH D. HENRIQUES, Ph. G., M. D.,

*Emeritus Professor of Materia Medica and Physiology.*

JOHN J. GRASSER, Ph. G.,

*Professor of Pharmacy and Director of Laboratories.*

J. OSWALD WEILBAECHER, A. B., Ph. G., M. D.,

*Professor of Botany, Materia Medica and Pharmacognosy.*

A. D. MOULEDOUS, Ph. G., M. D.,

*Professor of Physiology.*

H. T. NICOLLE, A. M., M. D.,

*Professor of Bacteriology.*

JOHN E. SCOTT, M. Ph.,

*Special Lecturer on Commercial Pharmacy.*

## ANNOUNCEMENT

Two courses of instruction are followed in this institution. The first, or regular two year course, will lead to the degree of Graduate of Pharmacy (Ph. G.)

The second or three year course will lead to the degree of Pharmaceutical Chemist (Ph. C.) The third year's work will consist of five days' instruction per week for eight full months. It is practically a post-graduate one to the Ph. G. course and is intended to aid those desiring to accept positions in Pure Food Laboratories or in manufacturing pharmaceutical establishments.

The instructions will be principally in the laboratories and only such didactic teaching will be given as will outline the work to be followed in the laboratories.

The reputation of this college is well established and full recognition is given it by the Regents of the University of the State of New York.

All branches included in the curriculum of this institution are taught solely to the students of THE NEW ORLEANS COLLEGE OF PHARMACY, and never in conjunction with those of any other department of the University.

Those contemplating a modern and practical course of pharmacy must be impressed with the fact that their interests are better subserved in an institution making PHARMACY a specialty than in such institutions which teach pharmacy in conjunction with science, dentistry or medicine.

The course of instruction followed in our curriculum adheres as closely as possible to the *Pharmaceutical Syllabus* recommended by the National Committee, represented by the Boards and Schools of Pharmacy in the United States.

The seventeenth session begins September 27th, 1917, and closes about May 19th, 1918, comprising thirty-one actual weeks of instruction, exclusive of all holidays.

But few Boards of Pharmacy today grant certificates to graduates in pharmacy without examination. The Oklahoma and Arkansas Boards of Pharmacy, however, grant such to graduates of this College.

This city with its population of nearly three hundred and fifty thousand people, contains nearly two hundred retail pharmacies, which offer a fair opportunity of furnishing employment to students of Pharmacy, thus helping them to earn a livelihood and pay at least part of their tuition.

## **SYSTEM OF INSTRUCTION.**

The instruction in this Institution is divided into a Junior and Senior course of about eight months each, leading to the degree of Graduate in Pharmacy (Ph. G.), to which has been added a third year of Post-Graduate work leading to the degree of Pharmaceutical Chemist (Ph. C.)

The Junior course embraces Inorganic Chemistry, including Qualitative Analysis, Theoretical Pharmacy and Pharmaceutical Manipulations, Botany, Physiology and Urinary Analysis.

Throughout the session examinations will be held periodically, and if the student make the required standing will be exempted from the final examinations. Those passing the periodical or final examinations will be permitted to enter the Senior class.

The Senior course is a continuation of that of the Junior year, taking up the more difficult and advanced work required of the pharmacist. It embraces Organic Chemistry, Practical Pharmacy, Materia Medica, Pharmacognosy, Toxicology and Commercial Pharmacy.

The Pharmaceutical Chemistry course will consist principally of laboratory instruction. It embraces analyses of all kinds. Pharmacognosy, Toxicology and Bacteriology will form an important part of the curriculum.

## FEES AND EXPENSES.

### JUNIOR YEAR—

|                                            |         |
|--------------------------------------------|---------|
| General Lecture and Laboratory Ticket..... | \$85.00 |
| Laboratory Breakage Deposit.....           | 15.00   |

### SENIOR YEAR—

|                                            |         |
|--------------------------------------------|---------|
| General Lecture and Laboratory Ticket..... | \$85.00 |
| Laboratory Breakage Deposit.....           | 15.00   |
| Fee for Graduation.....                    | 15.00   |

### PH. C. COURSE—

|                                            |          |
|--------------------------------------------|----------|
| General Lecture and Laboratory Ticket..... | \$150.00 |
| Laboratory Breakage Deposit.....           | 15.00    |
| Fee for Graduation.....                    | 15.00    |

The unexpended balance of the Laboratory Breakage Deposit is returned to the student at the close of each session.

This fee will be forfeited unless the student is checked up and the fee called for within fifteen days after the close of the session.

### SPECIAL—

|                                        |         |
|----------------------------------------|---------|
| Tickets to any Course of Lectures..... | \$20.00 |
|----------------------------------------|---------|

For special Laboratory Courses, arrangements can be made with the Dean.

## MATRICULATION.

Matriculation books will open for the coming session in July. Students outside of the city may make application to the Dean by mail, enclosing at the same time their certificates or other matter showing the extent of their preliminary education. This will avoid delay, and will give us time to pass upon the students' fitness to enter our Junior Class.

All students are expected to be matriculated before the opening of the session, thus allowing ample time to be assigned and provided with laboratory outfit. It is expected that every student should be equipped and ready to perform the laboratory work at the beginning of the session. If students fail to observe the above, they not only delay themselves, but others as well.

## REQUIREMENTS FOR ADMISSION.

All applicants must be white, at least seventeen years old, and must give satisfactory evidences of good moral character.

## JUNIOR CLASS

Candidates for admission to the Junior Class can enter without examination, provided they possess a certificate showing that they have completed the first year's work of a recognized high school.

Those not having a certificate as outlined above are also permitted to enter, provided they can show by a satisfactory examination that they have completed work equivalent to that required by the first year of a recognized high school.

Examinations will be held for such students by the Reception Committee of Loyola University at the College of Pharmacy, 1600-1606 St. Charles Avenue, on Wednesday, September 21st, at two o'clock, p. m.

The following are the subjects in which examinations must be taken:

**LATIN**—Grammar; Etymology; Declension of nouns, adjectives and pronouns; regular conjugations.

**Syntax**—The Rules of Concord. Authors: Viri Romae; Phaedrus' Fables.

**ENGLISH**—Precepts: McNichol's Fundamental English. Authors: Prose: Dicken's Christmas Carols; Hawthorne's Twice Told Tales; Irving's Sketch Book.

**Poetry**—Longfellow's Evangeline; Scott's Lay of the Last Minstrel, Marmion.

**HOME READING**—Cooper's Novels; Church's Stories from Homer; Cox's Tales of Ancient Greece.

**COMPOSITION**—Grammatical construction of sentences; simple narratives; letter writing.

**MATHEMATICS**—Wentworth's New School Algebra, as far as Simultaneous Equations.

**HISTORY**—Smith's History of Greece.

## SENIOR CLASS.

Candidates for admission to the Senior Class must have attended and completed the Junior course of instruction in this College, or give evidence of having read successfully a similar course at some reputable college of pharmacy.

An examination of candidates for admission to this class will be held on Thursday and Friday, September 22nd and 23rd, at the College building.

## Ph. C. COURSE.

Candidates for the Ph. C. degree must have completed the four year high school course or its equivalent at the time of entrance into the College of Pharmacy.

## WOMEN IN PHARMACY.

Women possess peculiar fitness for the study and pursuit of pharmacy. This fact is becoming daily more recognized, and the number of women engaged in this calling is constantly increasing. Fifteen have been graduated from this College, and all have succeeded, with little effort, in securing responsible paying positions or conducting their own stores.

The courses of instruction in this College are open to women upon the same terms and conditions as men.

## REQUIREMENTS FOR GRADUATION.

Candidates for graduation must be twenty-one years of age, and have had four years' practical experience in the drug business.

Candidates for graduation must have attended two full courses of instruction in pharmacy, the last of which must have been at this College, and they must have attained the required percentage in the final examinations.

Unless excused by the Dean for sickness or other cause, all students must have attended eighty-five per cent. of the hours of instruction in *each department* throughout the term, with a general attendance of ninety per cent. *Failing to comply with this condition, the student will forfeit the privilege of presenting himself for examination.*

## DEGREES.

The degrees conferred by this institution on its graduates are those of Graduate of Pharmacy (Ph. G.), and Pharmaceutical Chemist (Ph. C.)

## COURSE OF INSTRUCTION.

### CHEMISTRY.

PROF. ASHER.

These lectures, owing to the extent of the scientific field they embrace, especially their importance to a thorough knowledge of pharmacy, occupy a prominent part in the curriculum of this College.

As the South offers such a vast field of material of industrial importance, special attention will be given in both classes to those subjects which will be of interest to the students.

#### JUNIOR YEAR—FOUR HOURS PER WEEK.

The Junior work in this branch will begin with a treatise on chemical theory and physics, after which the non-metals will come under consideration, such points of interest as their discovery, origin, physical and chemical behavior, being discussed. Their various compounds will be studied, modes of preparation, commercial and scientific importance, and points touching upon their identity and impurities will be taken up.

These lectures will be illustrated by experiments and supplemented by laboratory work, particularly those points of importance which will enable the student to gain a further and clearer knowledge of the lessons the lecturer tries to impart.

In addition to the lectures, home work, comprising drilling in chemical formulas and equations, and problems, will be given with each lecture, and all thoroughly reviewed under the quizzes. A special feature of these quizzes is blackboard drilling in the foregoing home work.

Text-books: Simon's Chemistry; Dorland's Medical Dictionary.

## SENIOR YEAR—SIX HOURS PER WEEK.

The Senior work under this heading begins with a general outline of the metallic elements, after which each metal will be taken up in detail, with such of their compounds as are of scientific or pharmaceutical importance.

Tests for identity and impurities, modes of preparation, poisonous chemicals, and their antidotes, will all receive a full share of attention. The second half of the Senior year will be occupied with the chemistry of the *Carbon Compounds*, going as deeply into the subject as time will permit. The official organic compounds will be touched upon at some length, including manufacture and tests of identity. This class will also be given home work, including problems in *oxidation* and *reduction*, and the more difficult chemical equations.

Textbooks: Simon's Chemistry; Remsen's Organic Chemistry (4th Revision).

## PH. C. COURSE—FOUR HOURS PER WEEK.

The instructions of this course will consist of general organic chemistry, with particular attention paid to those compounds of pharmaceutical use and those classified under "pure foods."

Such points of importance, under Industrial Chemistry, will be touched upon which have particular relation to the pharmaceutical chemist and food analyst. Under Food work will be taken up those matters which are of special importance. The didactic lectures will also include the various analyses to be carried out in the laboratory, to acquaint the student with the salient features of the work, to be conducted by him.

Lectures, quizzes and laboratory work in Physics will also be taken up, with special reference to the use of apparatus, the underlying principles upon which they are based, and the determination of the physical constants used in chemistry.

Text-books: Cohen's Theoretical Organic Chemistry and such others as will be decided upon later.

## LABORATORY.

The course in this department embraces qualitative and quantitative analysis.

Each student is provided with table, reagents, gas, water, scales, weights, and all facilities to properly conduct his or her work.

### JUNIOR YEAR—FOUR HOURS PER WEEK.

Instruction under this head is in two parts. One part will be confined to the experiments which have been arranged to follow each lecture, including the proper manipulation of chemical apparatus, handling, manufacture and testing of the commoner gases and those compounds included under the non-metallic elements. The second part of the work will include qualitative analysis of bases and acids.

### SENIOR YEAR—FIVE HOURS PER WEEK.

The Senior student will begin with a review of the Junior work, to be followed by quantitative analysis, both gravimetric and volumetric. Urinary analysis, both qualitative and quantitative, as well as milk analysis, will also be considered.

Under Organic Chemistry such work as testing the commoner organic compounds will be taken up.

Text-book: Schimpf's Volumetric Analysis (5th Ed.).

### PH. C. COURSE—NINETEEN HOURS PER WEEK.

The work of the laboratory of this year will consist of qualitative and quantitative analyses of chemicals, ores and materials of industrial importance. The methods adopted by the A. O. A. C. will be taken up in detail as well as those which have been proven of service to acquaint the student with all practical methods. Analyses of soils, water, milk, ice-cream, fertilizers, cotton seed products will be taken up and practical work in Toxicology will also be given.

Text-books: Cohen's Practical Chemistry; Autenrieth, Detection of Poisons and such others as will be decided upon later.

## PHARMACY AND PHARMACEUTICAL CHEMISTRY.

PROF. GRASSER.

JUNIOR YEAR—FOUR HOURS PER WEEK.

Owing to its importance in pharmacy, the Pharmacopoeia will be treated in detail, especially the value of the standards laid down by the Government. Weights and measures of all systems will be taken up in fullest detail. The metric system owing to its scientific and practical importance, will be given especial consideration.

Drills in the conversion of one system into the other will constitute part of the work.

Solutions, including percentage solution, specific gravity and specific volume, will be taught by demonstrations, using all necessary apparatus for this purpose, accompanied by a thorough explanation of each.

The subject of heat as applied to pharmacy will be next considered. In addition to discussing the various apparatus and fuels, the operations requiring heat will be considered, as evaporation, distillation, sublimation, exsiccation, etc., in addition to the importance of various baths to control temperature.

The preservation and preparation of crude drugs for manufacturing purposes, as grinding, pulverization, etc., will be next considered..

The process of decantation, filtration and percolation will be taken up and thoroughly explained.

Having completed the subjects of operative pharmacy, the galenical preparations will be critically studied. While the various preparations will be discussed and studied from the standpoint of their several classifications, those preparations of merit and those most frequently used will be given individual consideration, the object being to familiarize the student with the reasons and the objects of each step in the manufacture of the different preparations.

The use of expensive and complicated apparatus will be avoided, and, while all labor-saving devices will receive proper attention, the student will be taught to improvise apparatus from such articles as are easily obtainable in the average retail store.

Text-books: Caspari's Pharmacy, U. S. Pharmacopoeia, and Remington's Pharmacy.

#### SENIOR CLASS—FOUR HOURS PER WEEK.

The lectures of the Senior year will embrace the study of the organic and inorganic acids, and the salts of the different metallic bases. The commercial methods of preparations will be touched upon, and a special effort will be made to teach the student how to prepare them extemporaneously when necessity arises therefor. In addition to the official compounds, those unofficial ones which, through frequency of use, merit it, will likewise be treated.

This will be followed by a study of the alkaloids, the neutral principle of vegetable drugs and the essential oils.

Extemporaneous pharmacy will then be taken up, and will include a thorough discussion of dispensing. Facsimiles of physicians' prescriptions will, by means of the stereopticon, be thrown upon a screen, and the class drilled in reading those that are barely legible. Chemical and pharmaceutical incompatibilities will be taught, and the best methods discussed for overcoming same.

Text-books: U. S. Pharmacopoeia, Ruddiman's Incompatibilities in Prescriptions, and Beal's Prescription Practice.

#### PH. C. COURSE—FOUR HOURS PER WEEK.

The course of lectures in this department will consist of a complete treatise of the various matters pertaining to pharmaceutical assays of the galenical preparations, such as tinctures, fluid extracts, etc., and the various methods of determining the purity and strength of fixed and volatile oils.

Pharmaceutical manipulations as carried on in large manufacturing establishments will be given particular attention and illustrated by means of slides and other ways.

All the methods of assay discussed in the didactic lectures will be carried out by each student individually in the laboratory.

Pharmaceutical synthetics will be considered in detail as to the various modes of manufacture, points of identification and differentiation from those of similar composition, therapeutic property and doses, as well as chemical composition and incompatibilities will be taken up.

## LABORATORY.

### JUNIOR YEAR—THREE HOURS PER WEEK.

Instruction will be given in the proper use of pharmaceutical apparatus. Determinations in specific gravity and specific volume will be made by each member of the class. This will be followed by a course in the manufacture of the galenical preparations, each student being required to make one or more of each class.

A short course in dispensing pharmacy will be given students of this class. They will receive a drilling in prescription work, comprising ointments, powders, elixirs, pills, emulsions, etc.

### SENIOR YEAR—SIX HOURS PER WEEK.

This will consist of a course in the graduation and purification of commercial chemicals, to be followed by a course in the manufacture of the simpler chemical compounds in order to drill the students in their extemporaneous preparation. Volumetric analysis will then be taken up, the several volumetric solutions of the pharmacopoeia will be prepared, and in turn, these will be applied to the titration of official preparations and chemicals; in addition to which alkaloid assay work will be taught, including pharmacopoeal and other methods.

The students of this class will receive a thorough course in dispensing pharmacy. Prescription work in general will be taken up, and incompatibilities will receive considerable attention. The pupil will prepare the incompatible prescriptions, wherever possible, so as to have their nature clearly defined.

## Ph. C. COURSE.

Under this head will be included all methods of assay directed by the U. S. P. and other standard methods to enable the student to obtain the best results in as short a time as possible. The laboratory is completely supplied with all apparatus for carrying out such work, enabling him to obtain the most comprehensive idea of the methods in vogue.

Special attention will be paid to the use of apparatus and methods that could be carried out by the pharmacist with such equipment as should be found in a well regulated pharmacy.

## MATERIA MEDICA AND PHARMACOLOGY.

PROF. WEILBAECHER.

SENIOR COURSE—THREE HOURS PER WEEK.

This is recognized as the most difficult department of pharmacy. Every effort will be made to present the subject in the most practical and simple manner possible. The drugs will be considered from the standpoint of their physiological action as the best methods for remembering them. The classification of drugs according to natural orders (or families) will also be taken up.

The past session has demonstrated the practical utility of teaching by charts in this department. A large chart has been prepared for every important drug, showing the principal points to be remembered in connection with each of them—viz., official and English names, synonyms, part used, botanical name, family, habitat, chief constituents, official preparations and doses, physiological actions, and antidotes or antagonists in case of poisonous drugs.

Serums, bacterins and allied physiological products being now so extensively used, consideration will be given them so as to make the pharmacist thoroughly familiar with them.

Text-book: Culbreth's *Materia Medica*.

## PHARMACOGNOSY.

PROF. WEILBAECHER.

SENIOR COURSE—TWO HOURS PER WEEK.

Closely allied with the study of *Materia Medica* is the branch of Pharmacognosy. This is of increasing importance each year on account of the National and State pure food and drug laws. The necessity for pure drugs, both in their natural state and in powdered form, is paramount. The work in Pharmacognosy is largely practical.

This course will consist from the very beginning of the microscopic consideration of the drug, describing its size, color, etc., at the same time considering its internal structure by means of cross-sections, thus enabling the student at one time to become familiar with the internal and external appearance of a drug, which are often closely related, thus making it easier to thoroughly know the drug. Each student will be given a specimen of practically every official drug for home study, and he is expected to identify them in quiz class, as well as to have a complete collection of same at each examination. Powdered drugs will also be examined and measurements taken of the various constituent cells. The compound microscope is of great aid in recognizing the powdered drug and its adulteration, and each student will receive practical instruction in its manipulation. Each student will be required to make individual cross-sections of drugs, clearing and staining them. These sections may be taken by the pupil for future use after leaving the College. A standard collection of cross-sections will be shown for his guidance.

Text-book: Kraemer's *Botany and Pharmacognosy* (3rd Ed.)

PH. C. COURSE—FOUR HOURS PER WEEK.

The work during this year will practically be a continuation of the work of the senior year.

The microscopy of powdered drugs will be taken up in more detail as well as general pharmacognosy, owing to the greater length of time which is assigned to this branch.

**BOTANY.**

PROF. WEILBAECHER.

JUNIOR COURSE—TWO HOURS PER WEEK.

As most of the drugs are plant-parts or plant-products, a study of botany is essential.

The work in this part is didactic, practical, and by means of quizzes. The didactic lectures will be illustrated by charts, diagrams and papier-mache models. As each part of the plant is taken up in turn, special reference will be made to those official drugs derived from each part and such specimens exhibited.

Specially prepared glass-covered cases containing each official drug properly labeled, and arranged according to part of plant from which it has been obtained, will be on constant exhibition throughout the session. This will aid the Junior students in familiarizing themselves with the names and general appearance of the official drugs.

On account of the warmth of our Southern climate, with its almost perennial abundance of flowers, practical demonstrations of the growing plants will be made. The use of the microscope in the analysis of plants and in the study of their general structure occupies a prominent part of this branch.

Each student will be provided with his or her own microscope, and is required to make individual analysis of plants.

Quizzes, as formerly, will occupy a considerable portion of the time spent in this study.

The course will be divided into three parts. The first part will be devoted to the didactic side; the second to practical work in the laboratory, and field excursions to enable the student to study the plant *in situ*, the latter part will consist of the beginning of *Materia Medica*, as far as the remaining time will permit.

Text-book: Bergen's Botany and Flora (Southern Edition.)

## **PHYSIOLOGY.**

PROF. MOULEDOUS.

JUNIOR COURSE—TWO HOURS PER WEEK.

The course will embrace the study of the structures of the human body; also, laboratory work demonstrating the physiological effects of the normal secretions.

This course will include lectures and demonstrations of gross qualitative urinalysis, as well as microscopical and other considerations of blood, and the other normal constituents of the human body.

The laboratory work in this subject will be such as will be comprehensible to the Junior student, leaving the more detailed work to be taken up in the Senior course.

Text-book: Jones & Bunche's Outlines of Physiology

## **BACTERIOLOGY.**

PROF. NICOLLE

PH. C. COURSE—TWO HOURS PER WEEK.

The work under this branch will consist of both the theoretical and practical consideration of the subject. The laboratory work will include all such matter for which one following pharmaceutical chemistry may be called upon. The morphology of bacteria will be taken up in detail and in the laboratory each student will be instructed in staining, plating, agglutination tests and such other matter included in the practical work of this subject.

The laboratory is completely equipped with all the necessary appliances to make the course thorough.

Text-books: To be announced later.

## COMMERCIAL PHARMACY.

MR. SCOTT

SENIOR COURSE—ONE HOUR PER WEEK.

During the past few years important changes have been made in the calling of Pharmacy, necessitating a better knowledge of the commercial side.

To meet this growing demand, the College has added this course, with the view of teaching its students such matters as relate to the proper conduct of the business, touching upon every detail of the subject as the allotted time will permit.

Text-book: O'Conner's Commercial Pharmacy.

## MATHEMATICS.

PROF. GRASSER.

JUNIOR COURSE—ONE HOUR PER WEEK.

This course will consist, first, of a review of Arithmetic in order to insure the student's proficiency in the use of fractions, decimals, and elementary algebra, and an acquaintance with the principles of alligation. Mensuration, in so far as it pertains to the determination of the capacity of vessels, will be considered, and then the Arithmetic of Chemistry and Pharmacy will be taken up in conjunction with the home work in these subjects.

## QUIZZES.

The lectures will be supplemented by quizzes, to be conducted by the Professors or their assistants.

## MEDICAL STUDENTS.

Recognizing the advantage to medical students of a systematic course in pharmacy, it has been decided to offer special inducements to the regular matriculants to take the course of lectures and the laboratory instruction in that branch. A special rate of \$20 per session has been fixed.

## SCHOLARSHIPS.

Two scholarships are offered to the student, the Scheele and Alumni Scholarships.

The Scheele Free Scholarship has been established by the Board of Trustees, to be for the two full courses of instruction, and will be awarded annually by the Faculty by competitive examination. It is open to any poor, worthy student in pharmacy who is entirely dependent upon his or her own efforts for support.

Those desiring to apply should make written application to the Dean not later than September 1st, stating upon what grounds they are entitled to same, and must be accompanied by at least two letters, from persons knowing the applicant, confirming his or her eligibility to the scholarship. The application will be investigated, and, if found correct, applicant will be so notified.

The Alumni Scholarship is also for the full two courses, and is awarded by competitive examination to such student recommended to the College by the Alumni Association of the New Orleans College of Pharmacy.

## PRIZES.

Four prizes will be awarded: The Alumni Gold Medal, given on behalf of the Alumni Association of the New Orleans College of Pharmacy to the Senior Student making the highest general average during the session; the Louisiana State Pharmaceutical Association Medal, to the Senior student making the second highest general average; one year's membership in the American Pharmaceutical Association, given by Philip Asher, M. D., to the Senior student making the third highest general average; and the Faculty Medal, to the Junior student under the same conditions as above. These prizes are presented to the successful candidates publicly at the Annual Commencement.

The Alumni Medal for the Session of 1916-1917 was won by B. P. Martinez, Paincourtville, La.; the Louisiana State Pharmaceutical Medal by Wm. Broussard, Lowry, La.; the Membership in the American Pharmaceutical Association by F. A. Calderone, New Orleans, La.; the Faculty Medal by A. C. Delaune, Thibodaux, La.

## MUSEUM.

Pharmacists of the State and vicinity are requested to send us curios, such as old books, apparatus or other materials, which will be of pharmaceutical interest.

All such contributions will be prominently displayed and labeled with the names of the donors.

## EMPLOYMENT.

The course of lectures has been so arranged as to permit those who desire it to devote a portion of their time to employment.

The Dean will keep a register of students seeking such employment, and will give every assistance possible in procuring it.

Applicants desiring to be placed in positions are requested to write to the Dean full particulars concerning themselves as to age, experience, by whom they had been employed and references.

Pharmacists desiring help are requested to communicate with the Dean.

Those desiring positions must bear in mind that, as half of the time is spent at college, they cannot expect to receive much compensation. Again as those who are employed in stores will be occupied very largely with their employer's duties there is little time left for study. We will endeavor, however, to place all those desiring positions. We make no promise to secure a position for all who apply, and past experience has demonstrated that the student can better succeed by coming here and making application in person.

## **BOARDING.**

Board can be obtained as low as \$4 per week, and a list of boarding houses, with prices, will be furnished the student on application to the Dean.

## **CORRESPONDENCE.**

Letters of inquiry will receive careful and prompt attention.

## **LOCATION.**

The College building is centrally located at Nos. 1602-4-6 St. Charles Avenue, the principal residential section of the city.

---

### **Application for Laboratory Desk Reservation.**

Prospective students should make application for admission and mail same with fee (\$5) to Philip Asher, M. D., Dean, New Orleans College of Pharmacy, 1602-4-6 St. Charles Avenue, New Orleans, La.

Desks in the laboratory will be reserved in the order in which paid applications are received. Remittances should be made by money order. Checks on local banks must have fifteen cents added for collection. The \$5 fee will be credited to tuition fee.

## BUSINESS COURSE.

Realizing that the coming great expansion of commercial New Orleans will call for the services of a large number of trained young men to take care of its manifold activities, Loyola University has decided to open a business course for young business men.

It is the intention of the authorities of Loyola University to broaden this course, as soon as convenient, into a thoroughly equipped COLLEGE OF COMMERCE. For the present year the courses to be taught will comprise bookkeeping, stenography, typewriting, English, Commercial Law and Spanish, arranged according to the following schedule:

| 1—MONDAY                                            | 2—TUESDAY                                      | 3—WEDNESDAY                                                          |
|-----------------------------------------------------|------------------------------------------------|----------------------------------------------------------------------|
| 7:30 Shorthand<br>Principles of Phonography         | 7:30 Bookkeeping<br>Principles of Bookkeeping  | 7:30 Shorthand<br>Review and Dictation                               |
| 8:30 Typewriting<br>Knowledge of Machine. Exercises | 8:30 English<br>Practical Grammar              | 8:30 Typewriting<br>Transcription of Notes. Composition of Documents |
| 4—THURSDAY                                          | 5—FRIDAY                                       |                                                                      |
| 7:30 Bookkeeping<br>Application of Principles       | 7:30 Commercial Law<br>8:30 Spanish            |                                                                      |
| 8:30 English<br>Business Letters                    | (a) Elementary Spanish<br>(b) Advanced Spanish |                                                                      |

The full course will extend over a period of thirty weeks. Students may enroll for the full course or they may take up any subject desired.

It will be noticed that this schedule embraces an elementary and advanced course in every subject except Commercial Law.

**TUITION.**

|                                                                          |         |
|--------------------------------------------------------------------------|---------|
| One subject for 30 weeks.....                                            | \$20.00 |
| Two subjects for 30 weeks.....                                           | 30.00   |
| Three or more subjects for 30 weeks.....                                 | 40.00   |
| Matriculation fee (to be paid only once for whole course)...             | 3.00    |
| Certificate (to be given only on completion of advanced<br>course) ..... | 5.00    |
| All tuition payable in advance semi-annually.                            |         |

## COLLEGE OF ELOCUTION. ORATORY AND DRAMATICS.

In October, Loyola will open the doors of a new department to be known as the Loyola College of Elocution, Oratory and Dramatics. While it is true that the curriculum of this Department embraces subjects taught to a certain extent in every Jesuit institution, the Fathers have recognized and appreciated the value of a more extensive course in these branches. To fill this long felt want, Loyola has decided to offer a complete course in Oratory and its kindred subjects.

### PROFESSORS.

MR. ALFRED J. BONOMO, A. M., LL. B., B. O.,

*Instructor in Elocution; English Writing; Extempore Speaking;  
Debate.*

MR. RICHARD A. DOWLING, LL. B.,

*Instructor in Dramatics; Stage Managing; Make Up.*

### REQUIREMENTS FOR ADMISSION.

#### PREPARATORY DEPARTMENT.

For admission to Classes A and B, student must have completed Eighth Grade.

For admission to Class C, student must have completed first year High.

For admission to Class D, student must have completed second year High.

Applicants will be examined and placed in the various classes according to ability and educational qualifications. Students may enroll for the full course as regular students, or they may take up any subject desired as special students.

**COURSE.**

The entire course covers a period of four scholastic years, beginning in the first week of October, and ending in May. It is divided into four classes as follows:

|              |                                         |
|--------------|-----------------------------------------|
| Class A..... | Simple Elocution                        |
| Class B..... | Advanced Elocution and Simple Dramatics |
| Class C..... | Advanced Dramatics                      |
| Class D..... | Oratory                                 |

**SCHEDULE.**

| SUNDAY                        | TUESDAY                                            |
|-------------------------------|----------------------------------------------------|
| 10 A. M.....Oratory           | 7 P. M.....Advanced Dramatics                      |
| 4 P. M.....Simple Elocution   |                                                    |
| FRIDAY                        | SATURDAY                                           |
| 7 P. M.....Advanced Dramatics | 7 P. M.....Advanced Elocution<br>Simple Dramatics. |

**CALENDAR.**

1917.

Tuesday, October 2nd.....Opening of Session  
Monday, December 24th.....Christmas Holidays Begin

1918.

Friday, January 5th.....Classes Resumed  
February 12th.....Mardi Gras (Holiday)  
March 29th.....Good Friday (Holiday)  
Tuesday, May 22nd.....Examinations Begin

Class A—Simple Recitations. Reading, Prose and Verse. Memory Cultivation. Elementary Pantomime. Selections from leading American and English Authors.

Class B—Subject matter of Class A thoroughly reviewed. Media of Expression. Breathing. Inflection. Qualities of the Voice. Time. Pitch. Force. Volume. Intensity. Enunciation. Advanced readings and recitations. English Writing: Simple Composition; Figures of Speech. Plays read and analyzed. Renditions of Dialogues and Simple Plays. Explanation of theatrical terms.

Class C—Study and rendition of full play. Character deliniation. Dialect. Stage Managing. The Art of Making Up.

Class D—Collecting material for the Essay and Speech. Development of Plan. Analysis. Delivery. The Extempore Speech. Argumentation. Debate.

## DEGREE.

The degree of Bachelor of Oratory will be conferred upon those who successfully complete the course.

## TUITION FEES.

Tuition fees are payable quarterly, in advance.

|                                            |               |
|--------------------------------------------|---------------|
| Class A.....                               | \$24 per year |
| Class B.....                               | 24 per year   |
| Class C.....                               | 32 per year   |
| Class D.....                               | 32 per year   |
| Matriculation fee (payable only once)..... | \$2.00        |
| Diploma .....                              | \$10.00       |

## ANNOUNCEMENT.

1917—1918

In preparing the schedule of the work for this session, the faculty of THE NEW ORLEANS POST-GRADUATE SCHOOL OF MEDICINE has kept in view the policy followed in the past of making the course of instruction almost entirely practical. The busy practitioner, who, at considerable sacrifice, does post-graduate work so as to familiarize himself with the latest advances along medical and surgical lines, has neither the time nor the inclination to sit on the benches and listen to lectures. Such information he can get from text-books and journals, in his leisure moments at home. Didactic instruction will be more in the nature of personal talks by the instructor to the student, and will illuminate the work that comes up from day to day, the didactic teaching being subordinated altogether to actual clinical and laboratory work.

The size of the faculty makes it possible to give individual instruction in every branch. Students are encouraged to get "close up," to ask questions, and, wherever possible, to actually assist in the examination of both medical and surgical cases. In operative work, in particular, it is a great advantage to be close enough to the field of operation to observe every step of the surgical procedure and to note every detail of technique. Students are requested to follow cases to the wards and to note post operative treatment and end-results. It is only by such sustained interest that really valuable instruction along surgical lines can be secured.

THE SCHOOL offers to its matriculants an abundance of clinical material, unsurpassed both in quality and quantity by any school of medicine in the United States. To the man sincerely seeking instruction, it offers opportunities for close study of clinical material second to none.

Members of the faculty hold important positions on the staff of the New Orleans Charity Hospital, the largest hospital in the South, and one of the largest in the country, with 1,200 beds and over 15,000 indoor patients yearly; on the staff of the Touro Infirmary, the Hotel Dieu and the Presbyterian Hospital, institutions which combine private and charitable work and offer exceptional opportunities in the way of clinical material; on the staff of the New Orleans Dispensary for Women and Children, where diseases peculiar to women are seen in great numbers; and on the staff of the French Hospital and Italian Clinics, smaller institutions, which furnish their quota of valuable clinical material. The Lying-in Hospital Clinic will be utilized by the department of Obstetrics as an additional source for the furnishing of instructive cases in its branch. It is the policy of the faculty to utilize the material offered by these various institutions to the best advantage of the student, due regard being given to the rights and interest of the patients.

PRIVILEGES IN CHARITY HOSPITAL.—On July 9th, 1914, the General Assembly of the State of Louisiana, by special act, gave to the NEW ORLEANS POST-GRADUATE SCHOOL OF MEDICINE, the right to bring its students into all departments of the Charity Hospital for teaching purposes.

**AFFILIATION WITH LOYOLA UNIVERSITY.**—The SCHOOL is now in the third year of affiliation with LOYOLA UNIVERSITY. The Board of Directors feels that this is of supreme importance for the future welfare of the SCHOOL. The day of the privately managed medical school is passing. Under the guidance of a great University, personal ambitions and personal prejudices are subservient to the good of the school as a whole. For its laboratory instruction, the SCHOOL will have at its disposal the facilities offered by the University, and all such work will be done in the Loyola buildings.

**OPERATIVE COURSES ON THE CADAVER.**—Special courses in Operative Surgery on the Cadaver, Operative Gynecology on the Cadaver, Operative Surgery on the Cadaver in Diseases of the Eye, in Diseases of the Ear, Nose and Throat, and in Diseases of the Genito-Urinary Tract will be formed on the request of a sufficient number of students. In the Courses of Operative Surgery on the Cadaver, students will be required to perform operations under the guidance of the instructor.

**LABORATORY COURSES.**—To students interested in those subjects, the department of Pathology offers, in addition to the regular course, special instruction in Bacteriology, Clinical Microscopy and Clinical Chemistry, including the Wasserman Test for Syphilis, with its modifications, as well as other established methods in laboratory work.

**SPECIAL COURSES.**—For matriculants who are desirous of special instruction in any branch, special courses are offered, the details of which are arranged by the Professor in charge of that department. For information as to cost, etc., application should be made to the Secretary of the SCHOOL.

**CERTIFICATES OF ATTENDANCE.**—Certificates of attendance will be given to those who have attended either the general course or any special course or courses for a period of four weeks or more. These certificates, for which a charge of \$3.00 is made, will be awarded at the discretion of the Board of Directors to such matriculants as, in the opinion of the Board, have done sufficient work to entitle them to this recognition.

## PROFESSORS.

- BOREY, CHAS. A., M. D.—*Professor Pediatrics*: Chief Visiting Pediatricist, Charity Hospital; Visiting Pediatricist, Hotel Dieu; Visiting Pediatricist, Presbyterian Hospital.
- BLUM, HENRY N., M. D.—*Professor of Ophthalmology*: Junior Visiting Ophthalmologist, Touro Infirmary.
- DANNA, JOSEPH A., M. D.—*Professor of Surgery*: Chief Visiting Surgeon, Charity Hospital; Visiting Surgeon, Hotel Dieu; Professor of Principles of Surgery, Loyola School of Dentistry.
- DUPUY, HOMER, M. D.—*Professor of Laryngology and Rhinology*: Chief Visiting Surgeon, Ear, Nose and Throat Department, Charity Hospital; Visiting Oto-Laryngologist, Hotel Dieu; Consulting Oto-Laryngologist, Dispensary for Women and Children; Professor of Oral Surgery, Loyola School of Dentistry.
- DIMITRY, THEODORE J., M. D.—*Professor of Ophthalmology*: Chief Visiting Ophthalmologist, Charity Hospital; Ophthalmologist, French Hospital; Consulting Ophthalmologist, Dispensary for Women and Children.
- JOACHIM, OTTO, M. D.—*Professor of Otology*: Chief Visiting Surgeon, Ear, Nose and Throat Department, Charity Hospital.
- KOHLMANN, WM., M. D.—*Professor of Gynecology*: Chief Visiting Surgeon, Gynecological and Obstetrical Division, Charity Hospital; Chief in Gynecology and Obstetrics, Touro Infirmary; Consulting Gynecologist, New Orleans Dispensary for Women and Children.
- NELKEN, ABRAHAM, M. D.—*Professor of Genito-Urinary and Rectal Diseases*: Chief Visiting Genito-Urinary Surgeon, Charity Hospital; Visiting Urologist, Touro Infirmary.
- NEWMAN, JACOB W., M. D.—*Professor of Obstetrics*: Visiting Obstetrician, Charity Hospital; Obstetrician, Lying-In Hospital Society; Visiting Obstetrician, Touro Infirmary.

POTHIER, OLIVER LOUIS, M. D.—*Professor of Pathology and Bacteriology*: Professor of Pathology and Bacteriology, Loyola University; Professor of Pathology, Loyola School of Dentistry; Pathologist, French Hospital.

ROUSSEL, J. NUMA, M. D.—*Professor of Dermatology*: Chief Visiting Dermatologist, Charity Hospital; Visiting Dermatologist, Touro Infirmary; Visiting Dermatologist, Presbyterian Hospital.

WAHL, JOSEPH P., D. D. S.—*Professor of Dental and Oral Surgery*: Chief of Dental Staff, Charity Hospital; Professor of Dental Technics and Fractures Maxillae and Mandible, Loyola School of Dentistry.

### CLINICAL PROFESSORS.

BARNETT, JACOB, M. D.—*Professor of Clinical Gynecology*: Visiting Surgeon, Gynecological and Obstetrical Division, Charity Hospital; Visiting Gynecologist, Touro Infirmary.

COLE, C. GRENESE, M. D.—*Professor of Clinical Surgery*: Chief Visiting Surgeon, Charity Hospital; Visiting Surgeon, Hotel Dieu; Chief Visiting Surgeon, Presbyterian Hospital.

DEPOORTER, LEAVIN, M. D.—*Professor of Clinical Rhinology and Laryngology*: Visiting Surgeon, Ear, Nose and Throat Department, Charity Hospital; Visiting Otolaryngologist, Hotel Dieu; Associate Professor of Oral Surgery, Loyola School of Dentistry.

ELLIOT, JOSEPH M., M. D.—*Professor of Clinical Medicine*: Chief Visiting Physician, Charity Hospital.

SALATICH, PETER B., M. D.—*Professor of Clinical Obstetrics*: Visiting Obstetrician, Charity Hospital; Visiting Gynecologist, Hotel Dieu.

SHLENKER, MILTON A., M. D.—*Professor of Clinical Gynecology*: Visiting Surgeon, Gynecological and Obstetrical Division, Charity Hospital; Visiting Gynecologist, Touro Infirmary.

UNSWORTH, CHAS. V., M. D.—*Professor of Clinical Neurology*: Visiting Neurologist, Charity Hospital; Psychiatrist, Louisiana Retreat for Mental and Nervous Diseases.

WEIL, ARTHUR I., M. D.—*Professor of Clinical Oto-Laryngology*: Visiting Junior Oto-Laryngologist, Ear, Nose and Throat Department, Touro Infirmary.

WALET, E. H., M. D.—*Professor of Clinical Gynecology*: Visiting Surgeon, Gynecological and Obstetrical Division, Charity Hospital; Visiting Gynecologist, Hotel Dieu.

### ADJUNCT PROFESSORS.

DORRESTEIN, C. A. M., M. D.—*Adjunct Professor of Gynecology*: Visiting Surgeon, Gynecological and Obstetrical Division, Charity Hospital; Junior in Gynecological Service, Touro Infirmary.

DEMPSEY, J. GEORGE, M. D.—*Adjunct Professor of Gynecology*: Visiting Surgeon, Gynecological Division, Charity Hospital.

GORMAN, JACOB A., D. D. S.—*Adjunct Professor of Dental and Oral Surgery*: Professor of Orthodontia, Loyola School of Dentistry.

HEBERT, J. S., M. D.—*Adjunct Professor of Obstetrics*: Visiting Obstetrician, Charity Hospital.

HENDERSON, JAMES A., M. D.—*Adjunct Professor of Surgery*: Visiting Surgeon, Charity Hospital.

HOLDERITH, CHAS. P., M. D.—*Adjunct Professor of Gynecology*: Visiting Surgeon, Gynecological and Obstetrical Division, Charity Hospital.

LEVIN, ABRAHAM L., M. D.—*Adjunct Professor of Gastro-Intestinal Diseases*: Visiting Physicians, Charity Hospital; Junior in Gastro-Intestinal Diseases, Touro Infirmary.

NIX, JAMES T., M. D.—*Adjunct Professor of Surgery*: Visiting Surgeon, Charity Hospital; Visiting Orthopedic Surgeon, Hotel Dieu.

POINTS, J. F., M. D.—*Adjunct Professor of Surgery*: Visiting Surgeon, Charity Hospital.

TULLER, CHAS. S., D. D. S.—*Adjunct Professor of Dental and Oral Surgery*: Professor of Oral Therapeutics and Pathology, Loyola School of Dentistry.

WATSON, D. L., M. D.—*Adjunct Professor of Obstetrics*: Chief, Out-Door Maternity, Presbyterian Hospital.

WILSON, SOLON G., M. D.—*Adjunct Professor of Surgery*: Visiting Surgeon, in Division of Orthopedics and Surgical Diseases of Children, Charity Hospital; Visiting Pediatricist, Touro Infirmary.

## INSTRUCTORS.

|                             |                                                             |
|-----------------------------|-------------------------------------------------------------|
| BOEBINGER, M. P., M. D..... | <i>Instructor in Oto-Laryngology</i>                        |
| CALLOWAY, N. O., M. D.....  | <i>Instructor in Anesthesia</i>                             |
| CRONAN, G. A., M. D.....    | <i>Instructor in Obstetrics</i>                             |
| DUNN, J. S., M. D.....      | <i>Instructor in Ophthalmology</i>                          |
| DUGGAN, WM. M., M. D.....   | <i>Instructor in Medicine</i>                               |
| HIRSCH, J. M., M. D.....    | <i>Instructor in Surgery</i>                                |
| HOUNTHA, J. M., M. D.....   | <i>Instructor in Surgery</i>                                |
| KEITZ, E. S., M. D.....     | <i>Instructor in Laryngology and Rhinology</i>              |
| LAROSE, J. B., M. D.....    | <i>Instructor in Ophthalmology</i>                          |
| LOEBER, MAUD, M. D.....     | <i>Instructor in Medicine</i>                               |
| MAYO, SARA T., M. D.....    | <i>Instructor in Gynecology</i>                             |
| NICOLLE, H. T., M. D.....   | <i>Instructor in Pathology</i>                              |
| OVERBAY, F. A., M. D.....   | <i>Instructor in Diseases of Eye</i>                        |
| SIGNORELLI, J., M. D.....   | <i>Instructor in Pediatrics</i>                             |

NEW ORLEANS, LA.

# Summary of Courses

---

## SURGERY.

### PROFESSOR.

JOS. A. DANNA, M. D.

### CLINICAL PROFESSOR.

C. GRENES COLE, M. D.

### ADJUNCT PROFESSORS.

SOLON G. WILSON, M. D.

JAMES T. NIX, M. D.

J. F. POINTS, M. D.

J. A. HENDERSON, M. D.

### INSTRUCTORS.

N. O. CALLOWAY, M. D.

J. G. HIRSCH, M. D.

E. F. SALERNO, M. D.

J. M. HOUNTHA, M. D.

R. J. PLATT, M. D.

### CLINICAL ASSISTANTS.

C. B. MAXWELL, M. D.

R. J. MAINEGRA, M. D.

An effort has been made to make the general course in Surgery of such a nature as to best serve the needs of the general practitioner who is constantly being called upon for surgical advice and treatment, but the abundance of material and the large staff of instructors make the course equally valuable to those especially interested in surgical work. Special attention is given to the diagnosis and treatment of fractures, both in the wards and out-clinics of the service at the Charity Hospital. In the out-clinics, thorough training is given in the care of minor surgical cases, and the student will himself be permitted to work in this department as a part of the course.

Operations in general surgery will be performed at least five times a week in the operating rooms of the Charity, and once a week at the Hotel Dieu. Emergency operations, which are constantly occurring at the Charity Hospital, will be duly bulletined.

Students who have demonstrated a familiarity with operative technic will be permitted to assist in major operations. Bedside instruction will be given in the wards of the Charity by Prof. Danna and his staff. Didactic lectures will be given

three hours a week by Profs. Danna and Cole, who will take up the Principles of Surgery, Operative Technic, Surgical Pathology, and such other subjects as are not covered in the Clinical work.

The course in Surgical Diseases of Children is in charge of Prof. Wilson, who will operate once a week, and will use the ample material in the wards and in the out-clinic of the Charity for clinical teaching.

Orthopedics will be taught by Prof. Nix, who will hold operative clinics either in the operative rooms or the Plaster Room at the Charity, and clinical instruction will be given either in the out-clinic at Charity or at Hotel Dieu.

Dr. Calloway and Dr. Platt will give instruction in Anesthetics, and those interested will have ample opportunity to become proficient in this branch.

Operative Surgery on the Cadaver will be given twice weekly by Prof. Points. All the well-known operative procedures will be demonstrated, and students will themselves be required to operate under the guidance of the instructor. Classes will be limited to four matriculants.

**SPECIAL COURSE.**—Those desiring more particular instruction in General Surgery and its branches may make arrangements for a special course by application to the Secretary. Abundant opportunity to assist in surgical work can be secured by those especially interested in surgical practice, provided they have had adequate preliminary training, either in the SCHOOL or elsewhere.

## **ORAL AND DENTAL SURGERY.**

### **PROFESSOR.**

**JOSEPH P. WAHL, D. D. S.**

### **ADJUNCT PROFESSORS.**

**JACOB A. GORMAN, D. D. S.      CHAS. S. TULLER, D. D. S.**

The Course in Oral Surgery is open to matriculants taking the General Course or the Course in General Surgery. Owing to the intimate relation existing between oral infection and systemic diseases, this course is recommended to the general practitioner as well as to the surgeon. Clinics are held twice weekly, and opportunity is offered to study the various diseases and deformities of the mouth and jaws.

The course includes the most modern methods of handling fractures of the Maxillae and Mandible, the interpretation of facial and dental radiographs, the study of peripheral causes of facial neuralgia and other disturbances of the teeth and jaws, and the differential study of cases of purely dental origin and those of general pathologic significance, illustrated by lectures and lantern slides. The importance of normal occlusion and the development of the arches will also be demonstrated by illustrated lectures and clinical cases. Stress will be laid upon the importance of Mouth Hygiene, especially during illness.

Conductive Anesthesia, which renders short as well as prolonged operations about the mouth painless, is an important part of the work offered, and prosthetic post-operative handling of cases of exsection and other head-operations will receive particular attention.

This course is recommended to graduate dentists who desire to specialize in oral and dental surgery.

## **GENITO-URINARY AND RECTAL DISEASES.**

**PROFESSOR.**

A. NELKEN, M. D.

**INSTRUCTOR.**

ADOLPH JACOBS, M. D.

**CLINICAL ASSISTANTS.**

E. S. SCHARFF, M. D.      HY. C. LOCHTE, M. D.

The Course in Genito-Urinary and Rectal Diseases is given 6 hours weekly in the general schedule. Two hours or more weekly will be given to major operative cases from the wards of the Charity Hospital. Four hours a week will be given at Touro Infirmary clinic, where will be demonstrated all the common genito-urinary and venereal cases that are met with in out-patient practice. Here special attention will be given to the diagnosis and treatment of gonorrhea and its sequelae, and to the treatment of syphilis by the administration of Salvarsan and Neo-Salvarsan, and the various methods of administration of Mercury. As an additional part of this course, students are encouraged to attend and assist in the

clinic at Touro, which is run daily, and which has an attendance averaging 10,000 cases yearly. In the wards of the Charity, which are part of this service, students are invited to follow up operative cases, and to be present at such cystoscopic, urethroscopic and proctoscopic examinations as may present themselves.

**SPECIAL COURSE.**—To those especially interested in Genito-Urinary and Rectal work, a special course is offered by Prof. Nelken, the hours of which will be convenient to the instructor and to the class. In this course, students will be instructed in the use of the Cystoscope, Anterior and Posterior Urethroscope, and Proctoscope. They will themselves be given an opportunity to do cystoscopy and ureteral catheterization under the direction of the instructor. The use of the High-Frequency Spark in the destruction of bladder tumors will be demonstrated. Methods of estimating the functional capacity of the kidneys will be shown.

Ample clinical material is available to make this course of especial value to those interested.

## **DISEASES OF WOMEN.**

### **PROFESSOR.**

W. KOHLMAN, M. D.

### **CLINICAL PROFESSORS.**

J. BARNETT, M. D.                      M. A. SHLENKER, M. D.

E. H. WALET, M. D.

### **ADJUNCT PROFESSORS.**

C. P. HOLDERITH, M. D.              C. A. M. DORRESTEIN, M. D.

J. GEO. DEMPSEY, M. D.

### **INSTRUCTORS.**

SARA T. MAYO, M. D.                      P. T. TALBOT, M. D.

### **CLINICAL ASSISTANTS.**

THOS. J. WALSHE, M. D.              GEO. J. HAUER, M. D.

LEWIS H. LEVY, M. D.

The **GENERAL COURSE** in Gynecology consists in the preparation of patients for examination, diagnosis, and medical and surgical treatment. Operative clinics are held daily, either at Charity Hospital or Touro Infirmary, where matriculants have

an opportunity of witnessing at close range gynecological operations of all kinds. In the outdoor clinics at Charity Hospital, Touro Infirmary, Hotel Dieu and the Dispensary for Women and Children, abundant opportunity will be given matriculants to examine patients under the direction of the instructor, and to become familiar with accepted methods of diagnosis and treatment.

**SPECIAL COURSES** of this kind, limited to those who have had some surgical experience, or who have taken one course in Operative Gynecology on the Cadaver, will be offered under the supervision of the Chiefs of the Gynecological Department. Classes are limited to not more than two (2) matriculants, who act as assistants.

**COURSE IN OPERATIVE GYNECOLOGY ON THE CADAVER.**—This course is instituted to enable matriculants to acquire by dissection a knowledge of the important structures to be considered in all gynecological operations. Each class is limited to four members. The gross anatomy and anatomical relations of all pelvic organs are thoroughly demonstrated. All the important abdominal and pelvic operations in the female will be performed by the student under the guidance of the instructor.

## **OBSTETRICS.**

### **PROFESSOR.**

J. W. NEWMAN, M. D.

### **CLINICAL PROFESSOR.**

P. B. SALATICH, M. D.

### **ADJUNCT PROFESSORS.**

J. S. HEBERT, M. D.      D. L. WATSON, M. D.

### **INSTRUCTOR.**

G. A. CRONAN, M. D.

Unusual opportunities are offered in the course in Obstetrics because of the large amount of clinical material available for teaching purposes.

Two separate courses will be conducted: a General Course and a Special Course.

The **GENERAL COURSE** will consist of:

(a) Instruction in the examination of women who are expecting confinement (pelvimetry, palpation, auscultation, etc.).

(b) Manikin work: Demonstration upon the manikin of all the more common obstetric operations.

(c) Post-partum instruction: Every day, at 11 o'clock, rounds will be made by the visiting surgeons of the Obstetrical division through the wards of the Charity, during which systematic talks on the clinical aspects of cases will be given.

(d) Students will be notified of normal deliveries occurring in the Charity and in other institutions connected with the service. Those desiring to do so may personally conduct normal cases under the supervision of the instructor.

The SPECIAL COURSE is intended to serve the needs of those desirous of advanced and detailed instruction in every phase of Obstetrical work. This course will consist of attendance at all confinements in the service at Charity Hospital and at all abnormal cases occurring at Touro Infirmary. Each matriculant will be expected to take charge of at least two cases of confinement under supervision. Instruction in the examination of women expecting confinement will be given, under the direction of Prof. Newman, at the Lying-In Hospital Clinic and by Profs. Salatich and Hebert at the Charity. This work includes palpation, auscultation, pelvimetry, and vaginal touch. Opportunity will be given to examine many women at different periods of pregnancy. The treatment of mothers and infants will be thoroughly taken up. Demonstrations upon the manikin of all the more common obstetric operations will be shown. Such didactic instruction as may be required to complete the course will be given by one of the instructors in this department.

## DISEASES OF THE EYE

### PROFESSORS.

THEODORE J. DIMITRY, M. D.      HENRY N. BLUM, M. D.

### INSTRUCTORS.

J. BROWNE LAROSE, M. D.      J. S. DUNN, M. D.  
F. A. OVERBAY, M. D.

The GENERAL COURSE in Ophthalmology consists of daily clinics from 9 A. M. to 11 A. M. The greater part of this time will be used in the study of diagnosis and treatment of cases. The student has the choice of large eye clinics at the Charity Hospital and Touro Infirmary. On days indicated in the schedule, both at the Charity and Touro Infirmary, operations

on the eye are performed, and the student will see demonstrated all important operative procedures.

Refraction, the fitting of glasses, and the adjusting of frames, will be given special consideration. Patients will be assigned to each student under the direction of one of the instructors.

Lectures on Anatomy, on Physiology, and on Optics will occupy two or more afternoon hours weekly. The use of various instruments used in Ophthalmology will be demonstrated.

A course of Lectures on Ophthalmology in General Medicine, with visits to the wards, will be given throughout the term. This is an advantage offered only in large hospitals where the Ophthalmologist is constantly in consultation with other members of the staff. Stress will be laid upon the condition of the fundus in general diseases.

SPECIAL COURSES for matriculants desiring more particular or advanced work will be offered by the Staff of this Department.

A SPECIAL COURSE IN THE SURGERY OF THE EYE IN THE CADAVER.—Dr. Dunn, Dr. Larose and Dr. Hume will take up the Operative Surgery of the Eye. Human eyes will be used to demonstrate the intraocular operations. An abundance of material makes this possible. The student may acquire the technic of lachrymal sac extirpation and the different muscle operations. This course will offer an unusual opportunity for those desirous of specializing in Ophthalmology.

## **DISEASES OF THE EAR, NOSE AND THROAT.**

### **PROFESSORS.**

HOMER DUPUY, M. D.,

*Nose and Throat.*

OTTO JOACHIM, M. D.,

*Ear.*

### **CLINICAL PROFESSORS.**

LEAVIN DE POORTER, M. D.

ARTHUR I. WEIL, M. D.

### **INSTRUCTORS.**

M. P. BOEBINGER, M. D.

EMILE KEITZ, M. D.

Instruction in Diseases of the Ear, Nose and Throat is didactic, clinical and operative. The student is permitted to carry out complete and systematic examinations on individual cases, and discuss differential diagnosis and treatment. He is

also allowed to carry out simple therapeutic and operative procedures, and to assist in the more complicated clinical manipulations. As he becomes more proficient, he is assigned a wider field of clinical work under the supervision of the instructor.

Clinics are held at Charity Hospital daily by Profs. Dupuy and Joachim and staff. At Touro Infirmary Prof. Weil will hold a clinic every Monday, Wednesday and Friday, from 8:30-11, and operate on Tuesdays, Thursdays and Saturdays at 8:30 A. M.

A short didactic talk precedes the clinics each day, taking up the diseases of the Ear, Nose and Throat, and these conditions are demonstrated in patients attending the clinics.

The entire field of work is thus covered in a thoroughly practical manner. The work in the clinics includes Tracheoscopy, Bronchoscopy, Esophagoscopy, and Suspension-Laryngoscopy in appropriate cases. Intubation is demonstrated in cases where indicated.

Matriculants witness operations by members of the staff at Charity Hospital, Touro Infirmary and Hotel Dieu. The operative steps are explained in detail, and the theoretical as well as the practical side of the operation made clear. As proficiency is acquired, opportunities will be given to assist in many operations.

**SPECIAL COURSE IN OPERATIVE SURGERY OF EAR, NOSE AND THROAT OF THE CADAVER.**—Operations included in this course are: Operations upon the nasal sinuses, upon the larynx, upon the trachea, the mastoid, etc.

Each of these operations is demonstrated by one of the Professors or a member of his staff, and, in turn, performed by the student. Proficiency in intubation upon the cadaver may be acquired before this important procedure is tried on the living subject.

**INTERNAL MEDICINE.****CLINICAL PROFESSOR.**

JOSEPH M. ELLIOT, M. D.

**ADJUNCT PROFESSOR.**

A. LOUIS LEVIN, M. D.

**INSTRUCTOR.**

MAUD LOEBER, M. D.

**CLINICAL ASSISTANTS.**

H. A. DAUTERIVE, M. D.

A. NOHA, M. D.

WM. M. DUGGAN, M. D.

Instruction in this branch will be entirely practical. Matriculants will be encouraged to go through the wards of the hospital with the instructors, to make personal examinations of cases, and to keep in touch with latest methods of clinical and laboratory diagnosis and treatment.

Matriculants will be invited to witness post-mortem examinations held in this service. In the out-clinic department, they will have opportunities to examine and note the treatment of a large number of patients, including many suffering from diseases peculiar to the South. Emphasis will also be laid on physical diagnosis of diseases of the chest and abdomen.

The course in Gastro-Intestinal Diseases is under the direction of Prof. Levin. All modern methods of diagnosis in this important branch will be minutely considered. Detailed instruction is given in the analysis and interpretation of test meals, the technique of gastric lavage, the use of the Esophagoscope, etc.

Special attention will be given to the dietetic treatment of gastric and intestinal diseases. Photographs and plates showing the value of the X-Ray in diagnosis of these conditions will be exhibited.

## NERVOUS AND MENTAL DISEASES.

### CLINICAL PROFESSOR.

CHARLES V. UNSWORTH, M. D.

The REGULAR COURSE in Nervous and Mental Diseases consists of bedside observation, and clinical and didactic lectures.

Didactic lectures will cover in sequence the embryology, histology and anatomy of the Nervous System. Particular attention will be paid to the illustration of these lectures by charts and lantern slides.

Clinical lectures will be devoted to etiology, symptomatology, pathology, diagnosis, and treatment. Cases illustrating the lectures will be presented, and the clinical phenomena and their value in diagnosis will be specially emphasized, thus making the course particularly interesting to post-graduate students.

The clinical material at the disposal of the school through its connection with the Charity Hospital, Touro Infirmary and the Louisiana Retreat (an institution for the care of Mental Diseases) assures the student exceptional advantages. SPECIAL COURSES can be arranged for matriculants desiring more particular and advanced instruction.

## DISEASES OF THE SKIN.

### PROFESSOR.

J. NUMA ROUSSEL, M. D.

In the REGULAR COURSE, clinical lectures on Dermatology will be given two hours a week at Charity Hospital, and one hour a week at Touro Infirmary by Prof. Roussel. Matriculants especially interested in skin-work are invited to follow the instructor daily through the wards of the Charity Hospital and in the out-clinics of Charity and Touro Infirmary. Great abundance of material is available, and stress will be laid upon the diagnosis and treatment of the more common skin affections such as are frequent in the routine of the general practitioner. The diagnosis and treatment of the skin-manifestations of Syphilis will be given special attention.

SPECIAL COURSES can be arranged for those desiring more particular and advanced instruction.

**DISEASES OF INFANCY AND CHILDHOOD.****PROFESSOR.****CHARLES A. BOREY, M. D.****INSTRUCTOR.****J. SIGNORELLI, M. D.****CLINICAL ASSISTANTS.****T. R. BURT, M. D.****L. CANEPA, M. D.**

This department is equipped to give instruction to those who wish to include the diseases of children in their general work as well as to those who desire more detailed instruction in order to fit themselves for special work in diseases of children. An unusual abundance of clinical material offers exceptional opportunities to practitioners interested in Pediatrics.

The babies' ward in the Charity Hospital contains abundant material for bedside study. Besides the clinics scheduled at the Charity Hospital, matriculants interested in this branch are invited to visit the clinics held by instructors of the school at Touro Infirmary, Hotel Dieu, Italian Clinic, and Presbyterian Hospital, where every opportunity will be given for personal examination of patients under the guidance of the instructor.

The theory and practice of infant feeding is taken up from time to time during the course, and the home modification of milk illustrated.

**PATHOLOGY, BACTERIOLOGY, CLINICAL  
MICROSCOPY AND CLINICAL  
CHEMISTRY.**

PROFESSOR.

O. L. POTHIER, M. D.

LABORATORY ASSISTANTS.

H. NICOLLE, M. D.

H. J. DAUTERIVE, M. D.

A. D. MOULEDOUS, M. D.

The general course in these branches comprises AUTOPSIES, and the examination of URINE, GASTRIC CONTENTS, FECES, SPUTUM, CEREBRO-SPINAL FLUID, and of other pathological material of interest. The subject of bacteriology will be taken up with especial reference to the needs of the general practitioner. The staining and identification of pathogenic organisms and the microscopical examination of the blood will likewise be included in the general course.

For those especially interested in the subject, a number of special courses have been arranged.

The Course in Surgical Pathology will cover the study of gross specimens obtained from operative cases, and include their microscopical examination. The relationship between certain physical conditions and surgical diseases will be demonstrated.

The Course in Serological Diagnosis will take up the Wassermann reaction for Syphilis and its modifications, the Complement Fixation test in Gonorrhea, and such other work as may logically be included under this title.

The Course in Neuro-pathology will include the examination of the various pathological conditions of the nervous system.

The Course in Bacteriology will include instruction in use of apparatus, cultivation and isolation of bacteria, microscopical technic, blood cultures, bacteriological examination of water and milk, the manufacture of autogenous vaccines, etc.

Reasonable fees, commensurate with the work offered, will be charged for these special courses. Those interested can secure details by application to the Secretary.

# SESSION 1917-18

# **NEW ORLEANS COLLEGE OF MIDWIFERY**

CONDUCTED BY THE

**New Orleans Post-Graduate  
School of Medicine**

AFFILIATED WITH

**LOYOLA UNIVERSITY**

**Session begins November 2d**

**Registration begins October 23d**

A course intended to equip intelligent white women for the practice of the Profession of Midwifery.

Instituted in fulfillment of an expressed desire of the Louisiana State Board of Medical Examiners in its report read and approved at the annual meeting of the Louisiana Medical Society in May, 1916.

Approved by said Board at a subsequent meeting.

Especially recommended for Graduate Nurses and practicing Midwives who have not had the advantage of a thorough, systematic, practical and theoretical course, as well as intelligent young women in other callings.

**JOSEPH A. DANNA, M. D., Secretary**

**Suite 714-716 Maison Blanche Bldg.**
